HOUSE BILL NO. 3325

Introduced by **HON. JOY MYRA S. TAMBUNTING**

EXPLANATORY NOTE

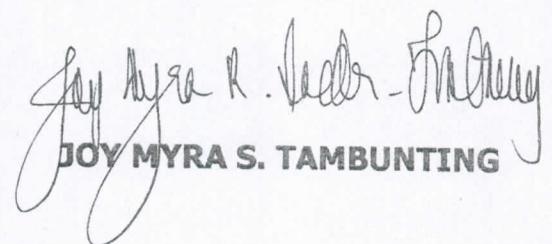

The barangay is the smallest unit of the government, making the barangay leaders the foundation of governance at the community level especially in the remote and far flung areas of the country.

As defined by the Local Government Code, the barangay serves as the primary planning and implementing unit of government policies, plans, programs, projects, and activities in the community, and as a forum wherein the collective views of the people may be expressed, crystallized and considered, and where disputes may be amicably settled. Officials and volunteers of the country's 42,036 barangays are not only the front liners in delivering various government services, they are also the primary facilitators of citizen empowerment and engagement so that the government is responsive to the true needs of the citizens it serve.

This bill aims to give additional benefits in the form of free trainings and workshops for barangay officials, employees and volunteers on how to effectively dispense their duties and responsibilities, provide free PhilHealth coverage to our Barangay Health Workers, free legal assistance to our Tanods and regular honoraria from the national government for the BHWs and Tanods because being in the frontline, they should be equipped with the necessary tools and support so that they can function to their fullest capacity.

With the limited budget of our barangays, augmentation from the national government will greatly increase their capability to provide more services for their constituency and also boost their morale. We are also empowering them to do more and to do better.

It is for these reasons that the passage of this bill is earnestly sought.
