**EXPLANATORY NOTE**

First off, this bill aims to serve as the counterpart of Senate Bill 1028 authored by Senator Bam Aquino believing as this humble author does in the timeliness and urgency of a measure of this nature. It is popularly known as the "Go Negosyo Bill."

The "Go Negosyo Act of 2013" seeks to strength the micro, small, and medium enterprises (MSMEs) sector by providing it with better incentives and benefits, granting more access to focused support for enhanced business performance, promoting support to key growth industries, and facilitating financing support programs that are much needed for growth. Further, the Act promotes more participation from the private sector in the MSME Development Council.

MSMEs, now more than ever, have an important socioeconomic role in our nation's machinery. Unemployment numbers are growing, and we have to realize that allocating effort and resources towards a strong and thriving MSME sector not only sustains, but also leads to the creation of considerable and promising net employment.

If unemployment is to be addressed head-on, then it behooves Congress to pass this Act. Improvement of the design and implementation of the nation's MSME sector is in direct proportion to improvement of the nation's employment rate.

This Act has the potential to assist MSMEs to integrate themselves in the formal economic market, which will bring forth more job opportunities and the growth of our nation's economy.

The approval and passage of this bill is therefore most earnestly enjoined, hence this submission.

  
WINNIE CASTELO
