1st Regular Session

House Bill No. 617

Introduced by Representative ERIC GO YAP

EXPLANATORY NOTE

The Local Government Code of 1991 states that as the basic political unit, the barangay serves as the primary planning and implementing unit of government policies, plans, programs, projects, and activities in the community, and as a forum wherein the collective views of the people may be expressed, crystallized and considered, and where disputes may be amicably settled. Most of the national government's efforts requires intervention and support of the barangays as they are the closest form of government to the people.

The barangay is headed by a Punong Barangay with support from the Sangguniang Barangay, who are, under the Local Government Code, receiving compensation in a form of honorarium, and not a fixed salary within a compensation system that will provide just remuneration for the wide range of roles and responsibilities under the Code.

People go to them for all sorts of problems, name it; medical support, burial assistance, conflict resolution, family disputes, crime, peace and order problem, and a lot more. Simply put, they are expected to address a number of issues apart from their regular duties and responsibilities as Barangay Officials, which are already burdensome to begin with. Some people go to them to ask for monetary support for their emergency needs, but they do not receive salary from the government. They are our first responders in times of natural and human-induced disasters, but they are not entitled to a hazard pay.

This bill seeks to provide fixed salary for barangay officials and declare them as regular government employees in order for them to receive just compensation and other benefits that other regular government employees are relishing. It is high time that our barangay officials be given what is due for them and recognize their vital role in carrying out government's services to the communities.

Just like any other agency, company or enterprise; in order to attract the most skilled and competent people, you must have an attractive compensation and benefit package as

well. As it is, the honoraria at the barangay level have remained too low to draw interest from potential leaders with the managerial and technical expertise critical to the development of the barangays.

In view of the foregoing, approval of this bill is earnestly sought.
