EXPLANATORY NOTE

A clear policy is stated in the very language of Republic Act 8282 in Section 2 thereof that runs thus, " It is the policy of the State to establish, develop, promote and perfect a sound and viable tax-exempt social security system suitable to the needs of the people throughout the Philippines which shall promote social justice and provide meaningful protection to members and their families against the hazards of disability, sickness, maternity, old age, death, and other contingencies resulting in loss of income or financial burden. Toward this end, the State shall endeavour to extend social security protection to workers and their beneficiaries".

However, instead of social security system benefits immediately accruing and reaching the legitimate claimants and beneficiaries, many individuals suffer the brunt of a rather tedious, difficult, and delayed processing of applications upon the submission of the applicants or claimants of all documentary requirements. This registers the fear and apprehension that they may not be able to receive these benefits at time and point of need which therefore cause them undue burden and betrays the very mission of the Social Security System to provide this social protection. More importantly, in no instance should the viability and integrity of the Reserve Fund be doubted in light of less-than-desired procedures in processing and in release of payments of claims.

In view of this sad state of affairs affecting hundreds upon hundreds of beneficiaries and their families, this humble representation earnestly requests timely approval of this measure.
