House Bill No. 560

---

Introduced by **HON. RODRIGO A. ABELLANOSA**

---

**EXPLANATORY NOTE**

Mining has been found to have a significant impact on climate change but it is undeniable that the nation's economy, not to mention the livelihood of many Filipinos, depend largely on this industry. This bill seeks to rationalize the mining industry's fiscal regime in order to ensure that mining contractors shoulder the environmental costs of their activities and fund the necessary environmental protection programs as well as developing technology that may mitigate adverse impacts of the mining industry.

This bill proposes graduated rates of royalties and windfall profits tax on top of the current taxes being imposed on the mining sector, thereby amending Chapter VII of the National Internal Revenue Code.

In view of the foregoing, passage of this bill is earnestly sought.
