Explanatory Note

The problem with traffic is not only confined in the big city streets such as EDSA, and congestion isn't isolated in the vicinity of Manila ports – the motor vehicles that continue to occupy the side streets, parked and idle, push carts, litters of all kind have been eyesores and a hindrance to foot and automobile traffic in most of our streets.

Motor vehicle owners should be made responsible to provide a permanent parking space for their private vehicles, whether this is made an integral part of their house or building structure or leased facility. The street is primarily intended for vehicular or foot traffic and should not be appropriated as personal parking spaces for these vehicles. Any financially-able purchaser of motor vehicle can be presumed to be able to provide a parking facility for his vehicle.

In addition, under pain of the penalties provided in this Act, this legislative initiative require the Land Transportation Office to verify the public document submitted by the registrant/purchaser attesting to the existence of the parking facility.
