AN ACT
DIRECTING THE DEPARTMENT OF HEALTH TO PREPARE AND PUBLISH ANNUALLY A
CONSUMER GUIDE TO PRESCRIPTION DRUG PRICES

EXPLANATORY NOTE

The Constitution, Article 13, Section 11, provides:

The State shall adopt an integrated and comprehensive approach to health development which shall endeavor to make essential goods, health, and other social services available to all the people at affordable cost.

Republic Act No. 9502, also known as the “Universally Accessible Cheaper and Quality Medicines Act of 2008,” Section 2 states:

Section 2. *Declaration of Policy.*— It is the policy of the State to protect public health and when the public interest or circumstances of extreme urgency so require, it shall adopt appropriate measures to promote and ensure access to affordable quality drugs and medicines for all. . . .

This bill seeks to direct the Department of Health to prepare and publish an annual consumer guide for the suggested retail prices of prescription drugs.

A guide which indicates the suggested retail prices of drugs will help the consumers determine the effectiveness of prescription drugs and therapies. This will enable the buyer to adequately exercise his option by giving him sufficient information about the prices of other drug products available in the market.¹

HARRY L. ROQUE JR.

¹ This bill was originally filed in the Thirteenth Congress, First Regular Session, and refiled by Senator Miriam Defensor Santiago in the Sixteenth Congress, Third Regular Session.
