EXPLANATORY NOTE

Globalization opened a world of opportunities as well as challenges for trade and investment. To keep pace with global competition, there is need to enhance foreign investment to promote exports from the country as well as provide a level of playing field for domestic enterprises and manufacturers.

This bill seeks to address this need by creating a Special Economic and Freeport Zone in the Laoag-Paoay-Currimao corridor in the province of Ilocos Norte. The Ecozone is conceptualized as a self-sustaining industrial, commercial and investment center that will encourage economic growth and accelerate employment generation in the province.

This bill envisions an Ecozone which shall be operated as a separate customs territory that will provide incentives to ensure the free flow and movement of goods and commodities within the area and their exportation therefrom. Likewise, it shall provide tax-based incentives for business operating within its premises. In addition, it shall also provide non-tax benefits like exchange policies and grant of permanent resident status to investors.

The bill creates the Ecozone as a body corporate eliminating the necessity of an authority-type of office to run the Ecozone. Instead, a governing body composed of the elected chief executives of the localities involved and the private sector will be responsible for the operation of the Ecozone.

Dubbed as the 'Gateways to the North,' Ilocos Norte's close proximity to the major economic hubs in Asia such as China, Hong Kong and Taiwan makes the creation of a Special Economic Zone ideal herein. The area embraced by the Laoag-Paoay-Currimao boost of physical attributes attractive to potential investors. The Laoag International Airport caters to both domestic and international flights from Taiwan, Hong Kong and Guangzhou, China. Furthermore, the Currimao Port has been a domestic cargo transshipment facility for both local and international ships for years. Plans to upgrade the port facilities are underway to accommodate not only cargo vessels, but cruise ships as well.

The province derives much of its income from agriculture and, in recent years, tourism. The Ecozone will bring economic diversity and benefits to the province. Employment opportunities generated by the Ecozone will minimize waves of Ilocano migration in search for greener pastures.

For additional information, this bill was approved at the committee level in the Sixteenth Congress.

In the light of the foregoing, the passage this bill earnestly sought.
