EXPLANATORY NOTE

This bill seeks to change the allocation formula used in the computation of the share of the local government units in the two percent (2%) tax on gross income earned by all business enterprises within the Subic Special Economic Zone (SSEZ), amending for the purpose Section 12 (c) of Republic Act (RA) No. 7227, otherwise known as the "*Bases Conversion and Development Act of 1992*," as amended.

Article 12, Section 1 of the 1987 Constitution provides that "*the goals of the national economy are a more equitable distribution of opportunities, income, and wealth; a sustained increase in the amount of goods and services produced by the nation for the benefit of the people; xxx.*" Consonant to this constitutional mandate, the SSEZ has been created with the passage of RA 7227. The SSEZ is a self-sustaining, industrial, commercial, financial and investment center which generates employment opportunities and attracts productive foreign investments.

RA 7227 provides that no national and local taxes shall be imposed within the SSEZ. In lieu of said taxes, and as an incentive to a separate customs territory like the SSEZ, a 5% tax on its gross income shall be paid by all business enterprises within the zone, 3% of which shall be remitted to the national government and 2% to the Subic Bay Metropolitan Authority (SBMA) for distribution to the local government units which are affected by the creation of the SSEZ.

With the passage of RA 9400 which amended RA 7227, the bases for the allocation formula on how the local government units affected by the creation of the SSEZ will share in the 2% tax on gross income from all business enterprises within the SSEZ had been set on the basis of population (50%), land area (25%), and equal sharing (25%).

While it is true that the Municipality of Morong has the biggest land contribution among the local government units in the creation of SSEZ, which amounts to a total of 8,172 hectares, we find it incongruous that the Municipality of Morong receives one of the smallest share in the 2% tax on gross income from all business enterprises within the SSEZ.

Thus, in the pursuit of giving the local government units which acceded to SBMA a bigger portion of their land area, and in order to equitably diffuse income opportunities for the common good, approval of this bill is earnestly sought.
