HOUSE BILL NO. 2875

INTRODUCED BY HON. ROBERTO "ROBBIE" V. PUNO

EXPLANATORY VOTE

The Philippine Constitution mandates the State to promote physical education and sports, to foster self-discipline, teamwork, and excellence, and at the same time, to develop a healthy and alert citizenry.

In 2015, the Department of Education (DepED) has released guidelines on the requirements and procedures that every school need to comply in order to offer the Special Program in Sports (SPS). This program was originally conceived to address the needs of talented students in different sports disciplines and to identify and create a pool of athletes who will be trained to compete in national and international sports competition.

However, the lack of available proper facilities and equipment in our public schools and available manpower hinder the sustainability of the implementation of the Special Program in Sports in the country, in terms of training support and proper exposure to competitive sports.

And so, in an effort to address this need and fulfill the State's mandate to promote physical education and sports, the Duterte administration has included in its "Build, Build, Build" program the establishment of a state of the art sports facilities in the New Clark City, which will be the hub for the 30th South East Asian Games to be hosted by the Philippines. This is part of the present administration's efforts to jumpstart grassroots sports development in the country.

But more than just physical infrastructure, this proposed measure also seeks to create and establish of a National Academy of Sports for High School (NASHS) that will serve as the premier training center to develop and hone the athletic abilities of high school students. The school shall equip the students with the necessary academic skills and conducive learning environment that will nurture our future international sports champions. The

NASHS is envisioned to be constructed in the New Clark City, which is expected to be completed by August this year, to maximize the use of the facilities and enable our student-athletes to hone their skills, give them proper exposure to world class sport facilities and possibly join the National Athletes Pool in various events.

Furthermore, this bill shall enable deserving students to have access to scholarships, stipends, and such other allowances to as incentives to encourage them to participate in sports-related activities.

President Rodrigo Duterte himself has said that sports is an effective avenue to instill among the youth essential characteristics for them to become productive members of society.

In view of the foregoing, the passage of this measure is earnestly sought.
