EXPLANATORY NOTE

This bill seeks to institutionalize the opening of Night High School classes using existing high school and elementary school facilities throughout the country. The purpose of the bill is to address the recurring problem of lack of school building and other facilities and teachers for public secondary education. Because of lack of secondary schools, the number of out-of-school youth and dropouts has increased. The opening of night high school using existing high school and elementary facilities will lessen the burden on the national government, in particular the Department of Education (DepEd) in funding the opening and operations of secondary schools. At the same time, it will give the opportunity for more students to study and finish secondary education. It will also give the opportunity to working students, married couples, and over-age Filipinos to finish secondary education.

This measure was previously filed by Senator Manny Villar in the 15th Congress. Approval of this bill is earnestly sought now in the 17th Congress.
