**EXPLANATORY NOTE**

Mindanao's economic performance in the past years has been encouraging. Its economy contributes 18% to the National economic output. Still, there is much more that can be achieved to attain inclusive growth and development.

This bill seeks to create the Mindanao Railways Corporation to boost up the economic development of the resources-rich Mindanao. Railway system is deemed crucial for fueling economic development in Mindanao as it would improve inter-island connectivity by linking major cities and provinces to further enhance tourism, trade and commerce.

Mindanao has consistently been a net exporting economy mostly from agriculture based exports. Its tourism has great potentials considering its rich and varied array of tourist attractions, including history and culture, natural beauty and adventure.

The Mindanao Railways Project has long been studied by the previous administrations. However, despite all the feasibility studies submitted on the table, there were no further actions to make it realize. It is now considered as a long overdue infrastructure project which, if materialize, would benefit the people in Mindanao as stressed by President Duterte himself.

As a legislator from Mindanao, approval of this bill is earnestly sought.
