HOUSE BILL NO. 0599

Introduced by: **HON. LORNA C. SILVERIO**

EXPLANATORY NOTE

The State has the primary task of instilling health awareness and promoting the right to health of the people as enshrined in Section 15 of Article II of our Constitution. Social justice being the backbone of the common man is highly regarded by the State.

Given this, Congress enacted Republic Act no. 9439, or "An Act Prohibiting the Detention of Patients in Hospitals and Medical Clinics on the Ground of Nonpayment of Hospital bills or Medical Expenses", which pertains primarily to the illegal detention of patients who are unable to settle their hospital bills on the spot. While the detention part is being addressed by this law, the interest earned by the principal hospital balance accrues over time and adds up to the agony and stress of the less privileged patients looking for means to settle the debt.

This bill prohibits the imposition of additional interest and penalty charges on unpaid hospital bills for one year upon discharge. It also extends to patients who are minors, whose parents belong to the less privileged or the minimum wage earners or less. It gives them a chance to secure payment without interest for a year and to at least recover from the physical, emotional and financial burden brought about by the crisis in their families.

In view of the foregoing, approval of this bill is earnestly sought.
