BILLS AND INDEX SERVICE	

Introduced by: Representative JOHNNY T. PIMENTEL

EXPLANATORY NOTE

It is the policy of the Philippines to ensure and protect the right of the people to a balanced and healthful ecology in accord with the rhythm and harmony of nature. This is enshrined by no less than the Constitution itself.

The forests have long provided for the basic needs of our people. It has been the source of food, livelihood and shelter for many generations that have come before us. Furthermore, the forests serve as the shelter to our highly diverse wildlife and help minimize erosion preventing floods.

However, significant proportions of our forests have succumb to the pervasive heavy loggings to the detriment of floras and faunas that are thriving in these areas. This instance holds true in the rain forests of Surigao del Sur. With the lack of protection to the trees, the future generations of our communities may not enjoy the benefits that our forests have endowed to us.

This Bill seeks to uphold our moral duty to the intergenerational rights accorded to our children by providing the protection and rehabilitation to the timberlands of the Municipality of Lingig, Province of Surigao del Sur.

The approval of this Bill is earnestly sought.
