EXPLANATORY NOTE

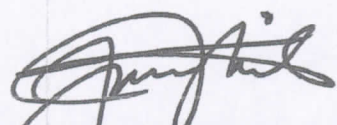

The 1987 Constitution, Article II, Section 13 provides that the State recognizes the vital role of the youth in national building and shall promote and protect their physical, moral, spiritual, intellectual, and social well-being. It shall inculcate in the youth patriotism and nationalism, and encourage their involvement in public and civic affairs. It is also our duty to teach the rights and duties of citizenship to the youth.

Jose Rizal once said that "*Ang kabataan ay ang pag-asa ng bayan*", but before this saying be manifested in today's generation, we must instill to the youth the importance of doing things for public service – for the benefit of what is right and what is just. We must encourage the youth to work in return for the grant that the government had given to them, it is by this way we can balance the lack of interest of the young generation in the participation in public and civic affairs.

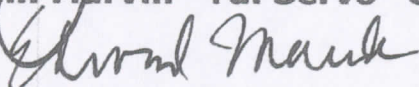

They will be required to have a one-year service in public institutions or government agencies as a way of committing themselves to preserve the thrust of public service for the generations yet unborn and to be a part of the national development. This bill will cover all expenses for the education of the students

and in return such student shall serve for the government for a period depending on the duration of the scholarship granted to him/her, as long as no violation or breach in any agreement be made or committed by the student.

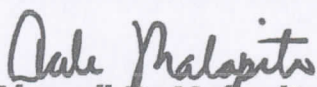

In view of the foregoing, the passage of this bill is earnestly sought.
