EXPLANATORY NOTE

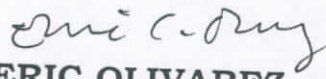

Tambo High School has been consistently providing decent education to a lot of young individuals residing in Parañaque City and its neighboring cities.

However, with the increasing population in the country including that of Parañaque and other adjacent areas, more and more students are expected or projected to enroll in the said high school in the coming years.

Unfortunately, Tambo High School is currently being run by the local government unit of Parañaque in cooperation with Barangay Tambo. However, the LGU and the said barangay are relatively small and have very minimal income. Considering the projected increase in the demand for public education in Tambo High School as it is also geared toward an expansion with newly constructed classrooms, Barangay Tambo will surely be unable to sustain all the students and the salaries of its teachers and it is feared that if Tambo High School continues to subsist as such, meaning, as operated by the barangay

and/or the LGU alone, it might fall short in providing quality and decent education for its students.

Article XIV, Section 1 of the 1987 Constitution mandates the State to protect and promote the right of all citizens to quality education at all levels, and shall take the appropriate steps to make such education accessible to all. In keeping with this policy, it is hereby proposed that Tambo High School be converted to Tambo National High School. Doing so would ensure that there would be regular budgetary appropriations from the National Government that would adequately meet the annual financial needs of the said school. The approval of this bill translates into a guarantee that quality education will be provided by Tambo National High School despite the increase in the population of its students and the additional numbers of school teachers to be hired.
