**HOUSE BILL NO. 3979**

---

**Introduced by Rep. Mohamad Q. Dimaporo  
and Rep. Abdullah D. Dimaporo**

---

### **EXPLANATORY NOTE**

This bill seeks to establish an arboretum in the Municipality of Tagoloan, Lanao del Norte that shall include the Mighty Cave Park in it and shall be known as the Mighty Cave Park Arboretum.

An arboretum is an area devoted to specimen planting of woody plants which are either trees or shrubs. Distinct from a forest or park, it is in a sense an outdoor museum of trees. It is a place where many varieties of trees and shrubs are grown for research, educational, and ornamental purposes where trees and other woody plants are cultivated for exhibition.

An arboretum plays an important role in the lives of many people and is a valuable environmental, educational, recreational, and cultural resource for the country. It plays an important role in the area of conservation and preservation of endangered species of trees where they can be protected and propagated to preserve the biological diversity of planet Earth.

Trees help us address climate change by reducing the amount of greenhouse gases in the atmosphere. They do this by absorbing carbon dioxide (CO<sub>2</sub>), using the carbon (C) to produce sugar for tree growth and releasing the oxygen (O<sub>2</sub>) back in the air. As trees grow, they store carbon in their leaves. Planting more trees surely mitigate the effects of climate change – as long as the right trees are planted in the right place. An arboretum is such one right place.

Many services that an arboretum performs for the public at large are too well known to require elaboration. Perhaps the most important arboretum function from the academe point of view is to provide an outdoor laboratory for scientific studies by faculty, students and residents in dendrology, phenology,

botany, environmental studies, photography and other related fields of study. The arboretum will serve as an educational resource for environmental stewardship and the promotion of environment consciousness, the history of the province, the study of trees and other woody plants, and a place of learning and respite for the people of Lanao del Norte. Hence this bill is filed.

In view of the importance of protecting and conserving endangered tree species and other woody plants, and having a clean and healthy environment, the prompt approval of this measure is earnestly requested.

**AN ACT**  
**ESTABLISHING AN ARBORETUM IN THE MUNICIPALITY OF**  
**TAGOLOAN, LANA O DEL NORTE WITH THE MIGHTY CAVE PARK**  
**IN IT, TO BE KNOWN AS THE MIGHTY CAVE PARK ARBORETUM**  
**AND APPROPRIATING FUNDS THEREFOR**

*Be it enacted by the Senate and House of Representatives of the Philippines in Congress assembled:*

SECTION 1. There is hereby established an arboretum of two hundred (200) hectares in the Municipality of Tagoloan, Lanao del Norte with the Mighty Cave Park in it, to be known as the Mighty Cave Park Arboretum.

For purposes of this Act, *Arboretum* refers to a reserved area which is essentially for a well-grown and representative collection of trees or shrubs species planted and maintained for the purpose of reference, scientific studies and as a convenient source of seed and herbarium materials.

SECTION 2 The Mighty Cave Park Arboretum shall have the following purposes:

a) To aid in the study and teaching of dendrology, phenology, botany, biology, and other related fields of study by being utilized as an outdoor laboratory by both faculty and students of nearby schools;

b) To serve as a sanctuary for the preservation and conservation of genetic resources of trees and shrubs, and as a model for environmentally sound landscape management;

c) To be an area within which the best species of indigenous woody plants can be propagated and where new species that can thrive in locality be introduced;

d) To provide a healthy and conducive area for recreation while at the same time enhancing the environmental consciousness of the community to preserve the natural beauty and ambiance of the Arboretum's protection zone; and

e) To serve as the habitat for a variety of amphibians, reptiles, birds, small mammals, and other wildlife in the area.

SECTION 3. The layout and design of the arboretum shall conform to its objectives and to the following consideration:

a) The trees should be planted in rows following the contour of the land area;

b) At least five (5) replicates of each species should be planted to ensure the security of the species;

c) Each tree species should be numbered, labelled and tagged with scientific name, common or local name, and the date and place of collection. In case of mortality, the species should be replanted with the appropriate species should be replanted.

SECTION 4. To ensure the growth of the species to be planted:

- a) Each tree species should be of high-quality materials, the selection of which should be made at least twelve (12) months prior to planting, in consultation with the nearest office of the Department of Environment and Natural Resources (DENR).
- b) Proper site preparation should be done prior to planting, to include brushing/slashing, staking, digging of hole, plowing and/or cultivation.
- c). Planting should be done at the onset of the rainy season.

SECTION 5. The Arboretum shall be placed under the overall management and supervision of the DENR. The DENR Secretary shall be appoint a Superintendent of the Arboretum who, together with a staff to be selected by the DENR from among its staff, shall ensure the proper management of the Arboretum.

SECTION 6. An Oversight Committee is hereby created to oversee and monitor the development and operation of the arboretum composed of the following:

- 1) The DENR Secretary or a duly designated representative as Chairperson;

2) The Provincial Governor of the Province of Lanao del Norte or his representative as co-Chairperson;

3) The Mayor of the Municipality of Tagoloan as Vice-Chairman;

4) The President of the League of Municipal Mayors of Lanao del Norte or the Vice-President thereof if the Mayor of Sultan Naga Dimaporo is the President of the League as member and;

5) one (1) member to be appointed by the DENR Secretary from among three (3) recommendees of the Provincial Governor

SECTION 7. The Arboretum may accept donations from government agencies or units and from private entities, both local and foreign.

SECTION 8. The amount necessary to implement initially the provisions of this Act shall be taken from the available savings of the DENR System. Such sums as may be necessary for the continued operation of the arboretum shall be included in the annual General Appropriations Act.

SECTION 9. This Act shall take effect fifteen (15) days after its publication in the *Official Gazette* or in a newspaper of general circulation.

*Approved,*
