EIGHTEENTH CONGRESS
First Regular Session

HOUSE BILL NO. 1001

Introduced by Representative Michael L. Romero

EXPLANATORY NOTE

Agriculturists, veterinarians, aqua-culturists, nutritionists, extension workers, agricultural engineers, agricultural technicians/technologists maintain the states linkages to farmers all over the country in improving and modernization of the agricultural sector.

Last 2008, agriculture accounted for twenty-five percent (25%) of the country's Gross National Product (**GNP**) and forty-two and a half percent (42.5%) of employment. They are the key players in the industry. They obtain government assistance and support mainly through agricultural development workers. The immediate delivery of services to our farmers have been left at a weakened and staggered state by certain government functions to the local level, thus creating coordination problems between the Department of Agriculture (DA) and the Local Government Units (LGUs).

This House Bill seeks to make beneficial positions mandatory in all cities and municipalities. This Bill also seeks the creation of slots for agricultural engineers, fisheries, and aqua-cultural officer in all provinces, cities and municipal governments. This House Bill also seeks to affirm the rights of agricultural workers with the provisions for their career development as a means of acknowledging their importance in agricultural modernization.

Thus, the early passage of this bill is earnestly requested.

MICHAEL L. ROMERO Ph.D.
