

Republic of the Philippines
HOUSE OF REPRESENTATIVES
Quezon City

EIGHTEENTH CONGRESS
First Regular Session

HOUSE BILL NO. 4755

Introduced by Hon. JOHNNY T. PIMENTEL

EXPLANATORY NOTE

This Bill seeks to institutionalize and strengthen a Warning, Alert and Response Network (WARN) 911 as the system which coordinates with the first major responder agencies during times of emergency. It also caters a greater involvement of local responders in forming regional, provincial, city, municipal and barangay 911 public safety answering centers. This gives the community stakeholders a more inclusive engagement in responding to emergencies.

Furthermore, this Bill ensures that purpose of the emergency 911 hotline is fully maximized by the citizens in distress. The access to the emergency hotline is designed to be without any charge or cost. This Bill also adds a safety net in guaranteeing the protection of our citizens. To prevent miscarriage of its access to the government's emergency responders, callers may still access the WARN 911 number even without credit or load at no cost. Moreover, subscribers of mobile network may tap to other networks when they call the WARN 911 hotline should there be absence of or low coverage of their own subscribed network.

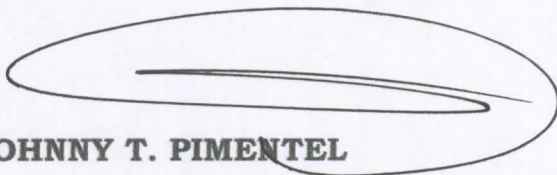

As part of the State thrust in disaster prevention, mitigation and response, this Bill also integrates WARN 911 as a partner of the National Disaster Risk Reduction and Management Council and its local counterparts. Being a

repository of distress calls and notices from the community, the hotline shall serve as a source of early warning system useful in upholding the mandate of disaster risk reduction.

The Bill also includes penalties against panic-callers giving false information and faulty reports. The penalties ranging from the imposition of fines to the suspension of the caller's subscription to their network and imprisonment.

The institutionalization of the emergency hotline WARN 911 presents a crucial service for the protection and security of the Filipino people that shall transcend even beyond the present administration.

In view of the foregoing, the approval of this Bill is earnestly sought.

A handwritten signature in black ink, consisting of a large, loopy 'J' followed by a series of connected loops and a final horizontal stroke.
