#### EXPLANATORY NOTE

As one writer notes "The teacher is an architect of man". He/she designs the destiny of the nation by preparing the blueprint of desirable, innovative, self-reliant, productive and above all, a God fearing Filipino youth. He or she prepares the lesson everyday and does not stop thinking of good things that he/she may add to the improvement of knowledge, attitudes and skills of children so that they would be adequately prepared to face actual life in the near future.

Aside from educating our children, teachers are likewise the most reliable and dedicated public servants. They are being constantly called upon by officials of the local and national governments to assist in various extra-curricular and civic activities which contribute to the welfare of the community and the country, most notable of which is when they are called upon by the government to assist during election period and the gathering during census period.

As of school year 2012-2013, there are 547,574 public school teachers both in the elementary (377,831) and secondary (169,743) levels. Teacher-student ratio during the same period is 1:36.

Public school teachers are among the lowest paid government workers considering the nature and importance of the services they render. This phenomenon has thus resulted in an exodus of our competent teachers who find higher paying jobs and better terms of employment abroad.

It is imperative therefore that to attract the most competent and efficient to the teaching profession, government must provide compensation and benefits commensurate to the work they perform and the contribution they make to the society. However, in difficult times, the government cannot easily provide increase in their salaries and wages hence provisions for non-wage benefits become necessary.

This bill seeks to provide public school teachers exemption to payments of withholding taxes in their salaries and allowances. It is the sincere belief of the undersigned author of this bill that with this privilege of tax exemption more new teachers will be encouraged to accept teaching jobs. It will increase their take home pay and will also encourage teachers to opt to stay in the public school system where we need the brightest of them.

It cannot be ignored that the tax exemption on the income of teachers will mean extra money for them to spare for their other needs and will stop the teachers from availing the high interest loan being offered by usurers to compensate the little take home pay they received.

In view of the foregoing considerations, approval of this bill is highly and earnestly recommended.
