HOUSE BILL NO. \_\_\_\_

**EXPLANATORY NOTE**

According to the data from the Philippine Cancer Society (PCS) Registry, the top ten cancers in the country (incidence) are breast, lung, colon-rectum, liver, cervix, prostate, leukemia, thyroid, stomach and ovary. The incidence of cancer increases with advanced age.

Childhood cancer (0-14 years) comprised only 2.2% of all cancer cases while 25% occurred among persons 65 years and older.

Therefore, a Cancer center is needed to cope with preventing and diminishing death caused by it, especially among the disadvantaged populace, through a comprehensive information, education, advocacy and focused services.

This House Bill seeks to create the **Clark Cancer Center**, to expand the research in cancer diseases, training of medical and technical personnel, and specialized medical services for the prevention and treatment of cancer diseases.

Thus, the early passage of this bill is earnestly requested.
