AN ACT ESTABLISHING A MULTIPURPOSE FISHERY BREEDING FARM AND HATCHERY FOR THE PRODUCTION AND MULTIPLICATION OF CRABS AND SHRIMPS IN THE MUNICIPALITY OF PEREZ, PROVINCE OF QUEZON AND APPROPRIATING FUNDS THEREFOR

EXPLANATORY NOTE

This bill seeks to establish a multipurpose fishery breeding farm and hatchery for the production and multiplication of crabs and shrimps in the Municipality of Perez, Province of Quezon. Perez is an island municipality along with the municipalities of Quezon and Alabat. The people of these coastal towns rely upon fishing as their main source of food and livelihood.

It was previously reported that a hatchery in Unisan town has put Quezon Province on the map of the country's aquaculture industry. Dr. Wesley Rosario, chief of the Bureau of Fisheries and Aquatic Resources-National Integrated Fisheries Technology Development Center was quoted as saying that the Unisan fish hatchery will catalyze the development of aquaculture in Quezon, which supplies almost half of the demand in markets nationwide (Philippine Daily Inquirer, "Hatchery putting Quezon on map of aquaculture", 09 September 2013).

This proposal aims to duplicate said initiative that is now gaining ground in the Province of Quezon. The establishment of a multi-purpose fishery breeding farm and hatchery for the production and multiplication of crabs and shrimps in the island municipality of Perez presents a viable solution to the problem of livelihood and poverty.

The rearing of fry and fingerlings and their dispersal in communal bodies of water in Quezon will replenish our supply and help keep pace with the increasing demand for fish and other marine resources.

In view thereof, approval of this bill is earnestly sought.
