SEVENTEENTH CONGRESS  
First Regular Session

House Bill No. 1892

Introduced by Representative Arthur R. Defensor, Jr.

### EXPLANATORY NOTE

There is a promising fireworks industry in the country, that can be further developed into an instrument in the promotion of tourism, and as a continuing and additional source of livelihood for many Filipinos. The fireworks industry contributes to the countries commemorative traditions, and is instrumental in the enrichment of the country's cultural heritage. Owing to its tourism potential, there is a need for government intervention in the development of the fireworks industry so that its products pass international standards, and become competitive as to enhance the tourism potentials of our commemorative traditions. While the important contributions of the fireworks industry is recognized, there is a need to regulate the manufacture and use of fireworks, in order to promote public health, safety and order.

Parenthetically, this bill entitled, "AN ACT TO PROMOTE AND REGULATE THE FIREWORKS INDUSTRY IN THE PHILIPINES", is likewise a response to the clamor to, once again, ban the use fireworks, owing to the injury and damage it has caused to people and property. Instead of banning fireworks, this Bill seeks to save the industry, while improving it for developmental use. The highlight of this bill is the limitation of fireworks use to community fireworks display only, conducted by selected and trained personnel. The Bill likewise limits access of the general public to fireworks, for their own safety.

The passage of this bill is strongly urged.

ARTHUR R. DEFENSOR, JR.
