EXPLANATORY NOTE

As a manifestation of support to this timely piece of legislation, this representation respectfully refiles this bill, which has constantly been receiving support from the past and present Congress.

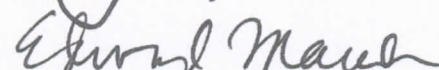

The State recognizes that each person has a right to an adequate standard of living, including to sufficient food. It is hereby declared a policy of the State to safeguard food security, end hunger, and promote the efficient use of the country's food resources.

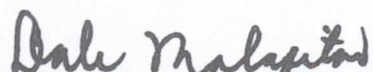

Towards this end, the State shall adopt a system to promote, facilitate, and ensure the reduction of food waste through redistribution and recycling. The massive amount of food wasted and the considerable number of people going hungry daily is a breach that this Act intends to correct.

This measure seeks to establish a National Zero Food Waste campaign to educate the public regarding the proper disposal of food and to present to them the current condition of the various food waste systems being done in the country. Also, this measure intends to prohibit food related businesses like restaurants and supermarkets from throwing away edible food and instead be donated to various banks and charity homes.

In view of the foregoing, the passage of this measure is earnestly sought.
