Eighteenth Congress
First Regular Session

House Bill No. 1388

Introduced by Representative Gerardo J. Espina, Jr.

EXPLANATORY NOTE

It is not unknown to many that Biliran Province is made up of group of islands. To make this island realize its full tourism potential, the necessary infrastructure must be realized. And with the passage of RA 10409 otherwise known as "An Act Declaring the Province of Biliran as Tourism Development Area and providing funds therefor" it is expected that more foreign and local tourists will be enticed to explore the island.

This bill seeks to provide for the development, rehabilitation and modernization of Naval Airport in the Province of Biliran, being the capital town that serves as the center of trade and commerce in the province. Developing and upgrading the airport's capability to handle commercial aircrafts will create more business opportunities which would redound to the greater benefit of the province.

Furthermore, Province of Biliran is located in the Eastern Visayas Region and it is frequently hit by typhoons and other natural calamities. During this period, calamity assistance can be easily delivered and availed by the eight (8) island municipalities of Biliran including the nearby provinces if there is a complete airport facility in the area. Hence, the passage of this bill is earnestly sought.
