Eighteenth Congress

HOUSE BILL NO. 5936

Introduced by Honorable Roger G. Mercado

EXPLANATORY NOTE

As a country that is prone to natural disasters, it would for our benefit to create an environment that could mitigate the effects of such disasters if it is not totally possible to prevent them. Awareness on environmental protection is one way of doing it.

The landslide that claimed more than one thousand lives in Guinsaugon, Saint Bernard, Southern Leyte on February 17, 2006 has remained a painful reminder to all of us and those that neglect the destruction of the environment. Guinsaugon Eco-Adventure Park has been created to promote awareness on the need to protect our environment. Since environment protection is national concern, it is only proper that Guinsaugon Eco-Adventure Park should be declared as a national park.

In view of the foregoing, passage of this bill is hereby being earnestly sought.
