House Bill No. _____

EXPLANATORY NOTE

Under Article XIV, Section 1 of the 1987 Constitution, it states that, "The State shall protect and promote the right of all citizens to quality education at all levels, and shall take appropriate steps to make such education accessible to all".

With the passage into law of Republic Act 10687 or the Universal Access to Quality Tertiary Education Act, there is now free tuition and exemption of all other fees for students of state colleges and universities.

While this is a very huge step in making quality education accessible to all, we must be reminded that the expenses that students have to bear does not only cover tuition and fees. There are other expenses that come with studying in college especially for those studying in colleges and universities in other provinces or cities, not where they live. There are also expenses for books, supplies and sometimes uniforms.

In view of the foregoing, immediate approval of this measure is earnestly requested.
