EXPLANATORY NOTE

The Philippines, over the decades, has had a thriving fitness industry. But a law regulating the personal training and group fitness instruction has yet to be enacted. This is despite the mushrooming number of health clubs, fitness centers and training studios.

The industry's regulation shall serve the following purpose :

- a) To protect anyone who wishes to avail the services of fitness professionals by ensuring that the trainer or instructor possess competency and knowledge adequate to meet the clients' needs.
- b) To open up more opportunities for fitness professionals as it ensures the public's confidence in the industry, by guaranteeing quality service from effective practitioners for the clients.

This proposed measure shall create a Board of Fitness Professionals to regulate personal training and group fitness instruction. It shall also adopt a code of ethics and standards of practice for licensed fitness professionals.

For these reasons, we urge the immediate passage of this bill.
