EIGHTEENTH CONGRESS
First Regular Session

House Bill No. 945

Introduced by **MAGDALO Party-List Representative**
HON. MANUEL DG. CABOCHAN III

EXPLANATORY NOTE

Infrastructure development plays a vital role in shaping our country's economy. Improved infrastructure in the country would help us attract more investors to invest in our country which would then lead to a more productive and prosperous economy. Annually, the government allocates a substantial portion of its monetary fund to public works projects. However, the huge amount of money earmarked for the same are often vulnerable to anomalous acts, such as substandard work and the use of substandard materials.

Presidential Decree 1759 was signed in 1981 to prevent construction of public facilities that are substandard, as well as the use of materials that have poor quality. PD 1759 also imposes sanctions on violations of its provisions.

This bill seeks to strengthen PD 1759 by increasing the penal sanctions on the violations of the provisions of this law from a minimum imprisonment of twelve (12) years to twenty (20) years. It also includes the use of premature deterioration of public works structure as *prima facie* evidence in determining the violation of the provisions of this law.

In view of the foregoing, immediate approval of this measure is earnestly sought.
