SEVENTEENTH CONGRESS  
1st Regular Session

House Bill No. 923

**Introduced by Hon. Francis Gerald Aguinaldo Abaya**

**EXPLANATORY NOTE**

From the time local governments had been established in the Philippines, they had always been classified, based on income, for certain purposes, among which are the determination of their financial capability, the establishment of the salary scales of local government officials and personnel and the determination of the number of *Sanggunian* or local council members.

The most recent legislation providing for the income classification of local government units (LGUs) is Executive Order No. 249 issued on July 25, 1987 by then President Corazon Aquino exercising legislative powers after the EDSA revolution. Subsequent LGU income reclassifications had been carried out through the promulgation of Department of Finance (DOF) Orders, the most recent of which is DOF Order No. 23-08 (issued on July 29, 2008).

Through time, however, the income reclassifications of local governments have evolved in such a way that an LGU's income class is not truly reflective of its financial capability particularly in generating locally sourced revenues because of the heavy reliance on the Internal Revenue Allotment (IRA) in setting the income ranges for the different classes. With the phased doubling of the IRA under the Local Government Code, it has become the biggest component of the annual regular income, which is the basis for classifying the income class of LGUs. As a result, LGUs at every level have tended to cluster in the higher classes while very few are classified in the lower classes. In addition, the wide disparities in the taxing capacities of LGUs and given further that this factor has a limited effect on the LGUs' current classification, the present system does not truly reflect the LGUs' financial capabilities and their relationship to each other within the same level.

In order to address these issues, it is imperative to give the Secretary of Finance a clear and unambiguous authority and mandate, and the flexibility to undertake regular income reclassification of provinces, cities and municipalities, so that LGUs can be better aligned with national government financial and fiscal policies.

In view of the foregoing, immediate approval of this bill is earnestly sought.

2 Units' Income Classification Act."

3  
4 **SECTION 2. Declaration of Policy.** – It is the policy of the State to provide an  
5 equitable and rational system of regular income classification of provinces, cities and  
6 municipalities that will reflect realistically their respective financial positions.

7  
8 **SECTION 3. Definition of Terms.** – As used in this Act, the following terms shall  
9 mean:

10 (a) **Annual Regular Income** refers to revenues, including fees and receipts

13 Revenue Allotment (IRA) and other shares provided for in Sections 284,  
14 290, and 291 of Republic Act No. 7160, but exclusive of non-recurring  
15 receipts, such as national aids, grants, financial assistance, loan proceeds,

19 and the gross income tax paid by businesses and enterprises in Special  
20 Economic Zones (ECOZONES) under R. A. No. 7916, as amended, and  
21 such other shares as may be granted by law to the province, city, or  
22 municipality, shall be considered as part of the annual regular income. The  
23 annual regular income shall be computed from the Statement of Receipts  
24 and Expenditures (SRE) maintained by the Bureau of Local Government  
25 Finance of the Department of Finance.

26 (b) **Average Annual Regular Income** refers to the sum of the "annual regular

- (c) **Local Government Units** refer to the political subdivisions of the State, namely, province, city or municipality.

**SECTION 4. *Income Classification of Provinces, Cities and Municipalities.*** – All provinces, cities and municipalities shall be classified into six (6) income classes according to income ranges and based on the average annual regular income for three (3) fiscal years preceding the general income reclassification.

**SECTION 5. *Administrative Authority of the Secretary of Finance.*** – The Secretary of Finance shall have the authority to set the income ranges and undertake the regular income reclassification of all provinces, cities and municipalities once every three (3) fiscal years, in order that the income classification of local government units conforms with the prevailing economic conditions and the overall financial status of the local governments.

**SECTION 6. *Period of Income Reclassification.*** –

a) The Secretary of Finance shall undertake the first general income reclassification of all provinces, cities and municipalities within six (6) months after the effectivity of this Act, and every three (3) years thereafter. b) However, a province, city or municipality, which has been in existence for a period of less than three (3) fiscal years immediately preceding the general income reclassification of local government units, as herein provided, shall be classified on the basis of its average annual regular income during such lesser number of fiscal years.

c) If a province or municipality is created before the year of the general reclassification of local government units, it shall be classified on the basis of the aggregate net share of income from regular sources actually realized from its component cities and municipalities in the case of a province, or its component barangays in the case of a municipality, plus the corresponding estimated Internal Revenue Allotment (IRA) of the newly created province or municipality pursuant to Section 285 of Republic Act No. 7160, during the fiscal year immediately preceding its creation.

d) The rule prescribed under the immediately preceding paragraph shall likewise apply to a municipality that is converted into a city, or a city that is created out of existing municipalities and/or barangays.

14 shall not be considered in violation of Section 325 of the LGC.
