HOUSE BILL NO. 2002

Introduced by Honorable Mylene J. Garcia-Albano

EXPLANATORY NOTE

This bill seeks the creation of the Davao International Airport Authority.

Davao City is the largest city in Mindanao and one of the most progressive cities in the Philippines. It serves as the center for trade, industries, education and tourism in Mindanao. Its airport, the Francisco Bangoy International Airport (FBIA) located in Davao City is one of the busiest airports in the Philippines. It also serves as the gateway to the sub-regional trade block known as East Asean Growth Area which is the center of economic cooperation in Southeast Asia that aims to accelerate trade, tourism and investment among its participating member countries like the Philippines, Malaysia, Brunei and Indonesia.

The FBIA plays a crucial role in the economic growth and development of the cities and provinces. Its efficient and effective administration will promote tourism and hasten trade and industrial relations not only within the country but also with other countries.

With the current adoption of the "*open sky policy*" of the Aquino government, it is the best time to enhance the quality of services and competitiveness of FBIA by creating a body that will principally undertake the control, management and supervision of the FBIA, and such other airports that may be established in Davao City and the provinces of Davao. A centralized body clothed with corporate personality will focus on adopting policies to exploit the potential of the FBIA to be a first class international airport. It will also

implement new technologies and efficient methodologies to improve its competitiveness so as to provide a safe and more efficient air transport service which is an essential element of any growing economy.

The creation of the Davao International Airport Authority will have a positive effect on the economic development of Davao City and the Davao Region. It will substantially contribute to the quest of the region to emerge as the premier socio-economic tourism center not only in the Philippines but also in the Asia-Pacific Region. Furthermore, it will also spur further economic growth of the surrounding provinces in Mindanao.

In view of the foregoing, approval of this bill is highly recommended.
