EXPLANATORY NOTE

Land ownership and its good management promote productivity and ensure the country's development. With this, the Land Registration Authority (LRA), tasked to see to it that the laws on land registration are effectively-implemented, has been created. The LRA is mandated to provide a secure, stable and trustworthy record of land ownership and recorded interests therein in order to promote social and economic well-being and contribute to national development.

However, the present state of affairs in registration of land is caught up in bureaucratic and routine tediousness. More often than not, individuals desiring to have their land registered have to go through the circuitous and expensive process of complying with each requirement usually demanded by several government agencies.

Intending to address this pressing problem that greatly affects high-quality land management, this bill will establish a one-stop action center in every legislative district of the country to facilitate the registration of land ownership. The establishment of a one-stop shop for purposes of registration of land titles and the deeds affecting such titles, without necessarily undermining the objectives of the Land Registration Act, can streamline and simplify existing systems. Moreover, since the process of registration is made in the province where the land is located, any alien or encumbrance on the land may be readily known.

In view of the foregoing, approval of this bill is strongly recommended.
