First Regular Session

HOUSE BILL NO. 3924

INTRODUCED BY REPRESENTATIVE ALFRED VARGAS

EXPLANATORY NOTE

The Philippines lost an estimated P3.5 billion a day due to traffic congestion in Metro Manila while traffic costs in Bulacan, Laguna, Cavite, and Rizal amounted to P2.3 billion. However, a Commission on Audit (COA) 2015 report of the MMDA shows that 927 out of the 2,382 personnel sufficient training to handle traffic.

Efficient traffic enforcement is an essential component in not just reducing the worsening traffic congestions in several parts of the country but also in preventing road accidents nationwide. Traffic enforcers play a crucial role in achieving these goals.

As such, this bill seeks to establish a National Traffic Enforcement and Management Center which will be responsible for the capacity-building of traffic enforcers in the country, assessment of road transportation projects and traffic management schemes, and research on road accidents.

The Traffic Center will create a mandatory program for the formal instruction and training of traffic law enforcement officers, not just in Metro Manila but in local government units (LGUs) and/or national government agencies. It addresses the systemic lack of training among traffic enforcement personnel which contributes to the worsening traffic situation in the country especially in urban areas by providing sufficient, comprehensive, and continuous trainings of newly hired and existing enforcers for effective traffic and transportation management.

Moreover, it seeks to promote greater understanding and promotion of our land transportation system and traffic management specifically on issues on road safety, enforcement, accident investigation, driver training, post-accident management, traffic engineering, and understanding of violations.

Thus, the passage of this measure is earnestly sought.
