

REPUBLIC OF THE PHILIPPINES
HOUSE OF REPRESENTATIVES
Quezon City

SEVENTEENTH CONGRESS
First Regular Session

House Bill No. 111

Introduced by **MAGDALO Party-List Representative**
HON. GARY C. ALEJANO

EXPLANATORY NOTE

Most nations have invested greatly in the safeguarding of their ports, waterways, and coastal security. These nations realized the immense responsibility in securing their territories, ports, and their economic interests. Ports in Romania have been equipped with state-of-the-art infrared motion detection device which provides employees with immediate awareness of specific security breaches in their ports. The Port of Manzanillo in Mexico on the other hand employ the use of 20-foot high portable guard towers which provides a cost-effective way of enhancing security in port facility.

While other countries are investing heavily in their ports and improving their coastal security, the capability of our PCG to secure our vast coastline and waterways lags behind.

With twelve (12) CG Districts, sixty-three (63) CG Stations and Two hundred thirty eight (238) CG Detachments strategically situated from Basco Batanes to Bongao, Tawi-Tawi, the PCG continue to perform with limited resources.

In order to address PCG's concerns, there is a need for the State to modernize the PCG. The Modernization Program under this Act shall allow the PCG to perform under its different functional areas effectively and efficiently.

In view of the foregoing, immediate approval of this bill is earnestly requested.

HON. GARY C. ALEJANO
