EXPLANATORY NOTE

This bill seeks to prohibit the boundary system of paying wages to drivers and conductors in buses, jeepneys and other types of mass transport system.

It is a reality that many innocent lives have been lost and others have been injured by reckless drivers of our public transportation system in their desire to earn a decent living. Practically, all these drivers are being paid on the basis of a boundary scheme wherein they earn on the basis of percentage on income. Under this system, drivers are forced to drive as fast as possible overtaking other public utility vehicles so they can have the passengers waiting for a ride even outside the station. Various opinion polls reveal that the boundary system have been the prime cause of road accidents that occur in our highways particularly where passengers abound, specifically along Commonwealth Avenue in Quezon City, which have been identified as the Killer Highway.

The paramount objective of this bill is to offer remedy to avoid further loss of lives by giving a fixed salary to our public transport drivers so that they will not be driving recklessly to catch as many passengers as possible because they will receive a fixed wage anyway. With the boundary system gone, the occurrence of road accidents prevalent in our public transportation system will be minimized if not totally eliminated for the great benefit of the traveling public.

The foregoing reasons warrant the approval of this bill.
