H.B. No. 6663

Introduced by **Representative TEODORICO "NONONG" T. HARESCO, JR.**

EXPLANATORY NOTE

According to the latest census in 2015, the Municipality of Ibajay, has the largest population in the Second District of Aklan which is about 49,564, an increase of 8.6% from the population count in 2010. A large percentage of this is comprised of school-age population. However, given the number of students, there is a need for the establishment of a National High School which shall be located in Ibajay to cater the students not only in Ibajay but also the students of the entire province, especially those living in the second district.

The creation of a National Highschool especially dedicated for the Second District of Aklan students will address the shortage in classrooms, big student-to-classroom ration and other gaps in the public school system. This will also give the parents another option to enroll their children to this institution than send them to private high schools or even send them in another province. Having their children enrolled in another highschool located in other province entails bigger overhead expenses which bleed dry the finances of the family.

This representation deems it imperative that this bill be enacted into law the soonest possible time.
