**EXPLANATORY NOTE**

This bill seeks to establish a coastal aquaculture center in the Municipality of Lala, Province of Lanao Del Norte.

The Province of Lanao Del Norte is blessed with rich fishing grounds in Panguil Bay and in the coastal areas of the Municipality of Lala facing Panguil Bay. The waters in these areas are generally free from pollution and provide an ideal place for research and breeding activities. Fishing in these areas has been an integral part of the local economy and will continue to be so in the next generations.

In recognition of the sector's actual and potential contributions to the national economy, its full development should be maximized. The government should take the lead by allocating considerable resources in research and development by providing a coastal aquaculture center in the Municipality of Lala. In line with this, it will help the existing Bureau of Fisheries and Aquatic Resources (BFAR) Lala Aquaculture Fish farm build stronger partnerships with Local Government Units (LGUs) and improve its services to the people of the Municipality of Lala, Province of Lanao Del Norte.

Furthermore, the approval of this measure shall help in the economic growth and contribute to national development by providing employment opportunities and a sustainable aquaculture productivity.

In view of the significance of this measure to national development, the prompt approval of this measure is earnestly sought.
