HOUSE BILL NO. 497

Introduced by: **REP. RAUL V. DEL MAR**

EXPLANATORY NOTE

The attached Bill seeks the construction of a circumferential road from Cebu City's first district (North) to the second district (South).

Current economic activities in Cebu put in sharp focus the development potentials of the City of Cebu and Metro Cebu, towards making it a prime growth center and more. This kind of potentials and this kind of development, however, give rise to some areas of concern. With Cebu City's and Metro Cebu's projected growth, even the construction and improvement of basic infrastructures, roads, bridges and flood control facilities in selected areas to alleviate the serious traffic situation now obtaining will not be adequate in the near future, given the increasing and widening areas of traffic.

It may be stressed that this Bill passed on third and final reading in the House of Representatives during the Seventeenth Congresses but was not approved by the Senate, for lack of time upon congressional adjournment.

Thus, it is for the above cited reasons that the construction of a circumferential road is necessary in order to improve the transport and traffic situation in Cebu City and Metro Cebu.
