EXPLANATORY NOTE

This Bill seeks the creation of a Council of Elders in every Barangay.

Most of our senior citizens, after having spent the most productive years of their lives contributing to the development of their respective communities in particular and the country in general, spend their twilight years unattended and wasting away.

The barangays, being the smallest local government units, would be the best venues where our senior citizens – with their reservoir of wisdom and wealth of experience – can be tapped to participate in different activities, help solve the problems confronting their barangays, and contribute greatly to the development of the same. It is our firm belief that development of local government units (LGUs) could be one of the biggest boosters of national development.

This will likewise be a concrete recognition of the invaluable and special role they have always played in society. Not to mention that many of our senior citizens today are in need of special care and attention and the budget allocated for the members of this council would be a big help for their medical and other needs.
