EIGHTEENTH CONGRESS
First Regular Session
House Bill No. 929

Introduced by **MAGDALO Party-List Representative**
HON. MANUEL DG. CABOCHAN III

EXPLANATORY NOTE

This bill seeks to establish a drug rehabilitation center in every region in the country. The illegal drug menace is now considered public enemy number one all over the world. It is a problem which poses a grave threat to a country's national security. In our country, it has alarmingly penetrated almost all sectors and levels of society including the government, business, and even law enforcement agencies.

Several government agencies envisioned to lead the government's total war against dangerous drugs. Laws were passed to encourage the participation of the local government units in both the prevention and control of the illegal drug menace. In short, our concern is how to eradicate or prevent the spread of illicit drug traffic in the country.

However, we should not forget that a drug dependent is not a criminal, but a victim who is in need of medical and psychiatric treatment and can still become a valuable member of society. In this light, the government should direct its national programs in promoting and sustaining the treatment and rehabilitation of victims of drug abuse, especially in the critical after-care and social reintegration stages. Bringing a person back to the state of being where he can successfully cope with the physical, psychological, and social demands of family and community life is one way of helping a sick person become a productive part of the community.

It is by the establishment of an accessible rehabilitation center in every region of the country that we can ensure the speedy recovery from the physical and mental trauma brought about by dangerous drugs to every drug dependent in the country.

In view of the foregoing, the immediate approval of this measure is earnestly sought.
