HOUSE BILL NO. 3930

Introduced by : **Cong. Manuel T. Sagarbarria**

EXPLANATORY NOTE

The bill seeks to provide for the establishment of a drug rehabilitation center in the Municipality of Amlan, Province of Negros Oriental.

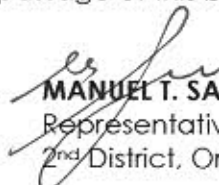

The 2015 National Household Survey of the Dangerous Drugs Board showed that there are 1.8 million drugs users in the country. With the unrelenting campaign of the current administration to weed out his country of drug traffickers, thousands of self-confessed drug users also surrendered and reached out to get proper medical assistance. The Philippine National Police last September 6, 2016 reported an alarming statistics of 687,953 self-confessed users and pushers.

With the influx of the overwhelming number of surrenderees, the government was left with merely booking and profiling them. Those who sought help from the government were asked to sign an agreement that they will no longer be involved in drugs and were sent home because they cannot be accommodated by existing rehabilitation centers. There are a total of forty one (41) accredited residential rehabilitation centers nationwide with only six (6) centers in the National Capital Region and none for the Negros Island Region. This emerging problem if left unchecked could later undermine the government's anti-drug policy.

The drug affectation does not only include the victim but their families, friends and communities. Lest we forget that aside from the effect of drugs on the victim, families are the most affected by the drug menace. Broken families, strained relationships, wasted resources and drug related crimes are some of the effects of drug abuse.

Negros Oriental has its share of drug related problems. Surrenderees must be given ample treatment in order to re-integrate them into society as productive citizens. To address this growing concern, the establishment of a rehabilitation center in the Province of Negros Oriental is in order.

In view of the foregoing, early passage of this bill is earnestly requested.
