EXPLANATORY NOTE

This is a refiled bill contained in Committee Report No. 442 of the 16th Congress.

The measure seeks to address the chaotic system of identification (ID) as the populace suffers from the burden of having ID cards from several government and even private agencies. As a result of this unwarranted system, there is a seeming perception of unpleasant divergence or incoherence among Filipinos – setting in impractical practice of having several ID's that causes confusion and difficulty.

The proposed system is aimed to hasten government services by accurate identification and fast recovery of all recorded transactions that passes through the government system. It shortens government business and services, ultimately, upholds efficiency.

Present in the United States of America and other progressive countries around the world, the solitary ID system that wraps into one all government agencies is attributed to their prompt services that highly contributed to their effectiveness in governance and development.

This proposal aims to establish a similar system with the intention of contributing to the growth in our government system and steady progress.

In view of the foregoing, the immediate approval of this bill is earnestly requested.
