Explanatory Note

Republic Act No. 10054 otherwise known as the "Motorcycle Helmet Act of 2009" was passed with the safety of the motorists in mind. Under Section 2 of the said law on Declaration of Policy, the law aims to "*secure and safeguard its citizenry, particularly the operators or drivers of motorcycles and their passengers, from the ruinous and extremely injurious effects of fatal or life threatening accidents and crashes*".

In recent events, it has been noted that the use of helmet by motorcycle riders, including drivers and back riders, unwittingly became an evil instrument for criminal elements to conceal their identity with the use of tinted face covers. "*Riding in tandem assassins*" lord it over in the streets and emboldened them knowing that the helmet they use are sufficient to hide their identities.

The escalation of crimes with "*riding in tandem assassins*", robbers and the like are more than enough to justify a review of the law and make certain amendments to address the issues. It is time to revisit the law and address the issue on criminality.

This proposed bill is a **re-filed measure from the 16th Congress.**

In view of the foregoing, the passage of this bill is earnestly sought for.
