BILLS AND INDEX SERVICE

HOUSE OF REPRESENTATIVES

House Bill No. 540

Introduced by Representative Victor A. Yap

EXPLANATORY NOTE

It is the policy of the State to advance the protection of human health and the environment from the potential risks of hazardous and radioactive wastes within the framework of sustainable development. Further, as a state party to the Basel Convention, the Philippines is fully committed to:

- (a) Ensure that the generation of hazardous wastes and other wastes within it is reduced to a minimum, taking into account social, technological and economic aspects; and to
- (b) Ensure the availability of adequate disposal facilities, for the environmentally sound management of hazardous wastes and other wastes, that shall be located, to the extent possible, within it, whatever the place of their disposal.

Our existing legal framework has significant legal gaps in it that require redress. Presently, under Republic Act 6969, also known as the "Toxic Substances and Hazardous and Nuclear Wastes Control Act of 1990"- the law fails to cover the gamut of issues beyond prohibition of entry. Likewise, Republic Act 9003, the "Solid Waste Management Act" fails to adequately cover "Medical Waste" which is generally hazardous to humans. Resultantly, cases involving the aforementioned hazardous wastes cannot properly be prosecuted.

In the most recent incident, a Canadian company, in conspiracy with a Filipino one brought Canadian garbage in the guise of recyclables to our shores. The situation highlighted the vulnerabilities in our legal policies as well as raising issues on implementation.

This Bill seeks to close the gaps to make sure that waste is subject to proper treatment to avoid dangers to the public at large. Further, this bill will provide the necessary guidelines for the proper handling, treatment and tracking of waste. Finally, it will provide additional sanctions and penalties for violators.

In view of the foregoing, the early passage of this bill is sought.

VICTOR A. YAP
Representative, 2nd District of Tarlac

SEVENTEENTH CONGRESS
OF THE REPUBLIC OF THE PHILIPPINES
First Regular Session

HOUSE OF REPRESENTATIVES

House Bill No. 540

Introduced by Representative Victor A. Yap

AN ACT

PROVIDING FOR A COMPREHENSIVE HAZARDOUS AND RADIOACTIVE WASTES MANAGEMENT AND PROVIDING PENALTIES FOR VIOLATIONS THEREOF

Be it enacted by the Senate and House of Representatives of the Philippines in Congress assembled:

1 CHAPTER I

2 GENERAL PROVISIONS

3 **SECTION 1. Title.** – This Act shall be known as the “Hazardous and Radioactive Wastes
4 Management Act”.

5 **SEC. 2. Declaration of Policy.** – It is hereby declared the policy of the State to advance the
6 protection of human health and the environment from the potential risks of hazardous and
7 radioactive wastes within the framework of sustainable development. Towards this end, the State
8 shall:

9 (a) Develop and implement national and local integrated and comprehensive hazardous and
10 radioactive wastes management programs focusing on pollution prevention and resource
11 conservation and recovery, which shall:

12 (1) Improve waste management techniques, organizational arrangements, methods of collection,
13 separation and recovery of wastes;

14 (2) Promote environmentally safe disposal of residues;

15 (3) Minimize the generation of wastes by encouraging cleaner production, process substitution,
16 resource recovery, recycling and reuse, and treatment; and

17 (4) Institutionalize public participation in the development and implementation of hazardous and
18 radioactive programs;

19 (b) Promulgate guidelines for the generation, collection, segregation, transport, recovery, storage,
20 treatment and disposal of hazardous and radioactive wastes including emergency and contingency
21 plans for accidents involving these wastes;

22 (c) Prohibit and/or restrict the entry, even in transit, of hazardous and radioactive wastes into
23 Philippine territorial limits for whatever purpose, consistent with multilateral international
24 agreements and protocols;

25 (d) Promote a national research and development program for improved hazardous and radioactive
26 wastes management and resource conservation techniques;

- 1 (e) Formulate and enforce a system of accountability for generators, including the promotion of
2 extended producer responsibility, product stewardship and responsible care program;
3 (f) Promote international environmental standards on waste management; and
4 (g) Strengthen the integration of hazardous and radioactive wastes management and resource
5 conservation and recovery topics into the academic curricula of formal and nonformal education in
6 order to promote environmental awareness and action among the citizenry.

7 **SEC. 3. Coverage of this Act.** – This Act shall apply to the generation, possession, collection,
8 recovery, reuse, storage, transport, treatment and disposal of hazardous and radioactive wastes in the
9 country for whatever purpose: Provided, That this Act shall cover the entry, even in transit, into
10 Philippine territory of such wastes.

11 **SEC. 4. Definition of Terms.** – As used in this Act:

12 (a) Abandoned underground mines refer to worked out mineral mines with deep shafts below the
13 ground surface;

14 (b) Best Available Techniques (BAT) refer to any technology that shall take into consideration the
15 costs and benefits of a measure as well as the precaution and prevention including, but not limited
16 to:

17 (1) The nature, effects and mass of releases concerned;

18 (2) The consumption and use of raw materials in the process and its energy efficiency;

19 (3) The need to prevent or reduce to a minimum the overall impact of releases to the environment;
20 and

21 (4) The need to ensure occupational health and safety at the workplaces;

22 (c) Best Environmental Practices (BEP) refer to practices that are generally accepted as
23 “environmentally friendly”, taking into consideration the nature, traditions, and culture of the
24 locality and the technological advances and changes in scientific knowledge and understanding;

25 (d) Borehole facilities refer to those that entail the emplacement of solid radioactive waste in an
26 engineered facility of relatively narrow diameter, bored and operated direct from the surface. These
27 cover a range of design concepts with depths ranging from a few meters up to several hundred
28 meters and its diameters can vary from a few tens of centimeters up to more than one meter;

29 (e) Contaminated site refers to a place or spot where the soil quality exceeds the soil standards set
30 pursuant to Section 16 hereof;

31 (f) Corrective action refers to the steps taken to assess, prioritize and clean up hazardous and
32 radioactive wastes from treatment, storage and disposal facilities (TSDFs) and/or contaminated sites
33 in order to protect health and the environment;

34 (g) Corrosivity refers to a state where the waste has one of the following characteristics and
35 properties:

36 (1) It is aqueous and has a pH less than or equal to 2 or greater than or equal to 12.5; or

37 (2) It is liquid and corrodes steel (SAE 1020) at a rate greater than 6.35 mm (0.250 inch) per year at a
38 test temperature of 55°C (130°F);

- 1 (h) Deep injection well refers to a well used for subsurface injection of waste fluids and solids
2 derived from industries such as geothermal and oil and gas into an injection zone;
- 3 (i) Disposal refers to the discharge, deposit, injection, dumping, spilling, leaking or placing of any
4 hazardous and radioactive wastes into or on any land or water so that these wastes or any
5 constituent thereof may enter the environment or be emitted into the air or discharged into any
6 waters, including ground waters;
- 7 (j) Generation refers to the act or process of producing hazardous and radioactive wastes;
- 8 (k) Generator refers to a person, natural or juridical, who produces hazardous and radioactive
9 wastes;
- 10 (l) Geological repository refers to the isolation of high level radioactive waste using a system of
11 engineered and natural barriers at depths up to several hundred meters in a geologically stable
12 formation;
- 13 (m) Hazardous waste refers to a substance discarded from commercial and industrial establishments,
14 institutions and healthcare facilities which, because of its concentration or its physical, chemical, or
15 infectious characteristics, may cause or significantly contribute to increases in mortality or serious
16 illnesses, or pose an unreasonable risk and potential threat to human health and the environment;
- 17 (n) Hazardous and radioactive wastes management refers to the systematic administration of
18 activities which provide for the identification, listing, collection, segregation, storage, transport,
19 recovery, reuse, processing, reprocessing, treatment and disposal of hazardous and radioactive
20 wastes;
- 21 (o) Healthcare waste refers to total waste stream originating from minor or scattered sources or
22 healthcare units that is generated or produced as a result of the following activities: diagnosis,
23 treatment or immunization of human beings or animals; research pertaining to the above activities;
24 and production or testing of biologicals;
- 25 (p) Ignitability refers to the characteristic of hazardous wastes that could cause a fire during
26 transport, storage or disposal. Waste matter exhibits the characteristic of ignitability if a sample
27 thereof has any of the following properties:
- 28 (1) It is a liquid matter that has a flash point less than 60°C (140°F);
- 29 (2) It is not a liquid matter and is capable, under standard temperature and pressure, of causing fire
30 through friction, absorption of moisture or spontaneous chemical changes and, when ignited, burns
31 so vigorously and persistently that it creates a hazard;
- 32 (3) It is an ignitable gas; or
- 33 (4) It is an oxidizer;
- 34 (q) Injection zone refers to a geological formation, group of formations or a part of a formation
35 located below the underground source of potable water, and which receives waste fluids or solids
36 through a deep injection well;
- 37 (r) International environmental standards refer to the requirements or standards under existing
38 international environmental agreements to which the Philippines is a party;
- 39 (s) Sanitary landfill refers to a waste disposal site designed, constructed, operated and maintained in a
40 manner that exerts engineering control over significant potential environmental impacts arising from
41 the development and operation of the facility;

- 1 (t) Land disposal refers to the placement of hazardous and radioactive wastes on the surface, near
2 surface and at depths within the soil column;
- 3 (u) Land treatment or land farming refers to a managed technology that involves the controlled
4 application of waste on the soil surface and/or the incorporation of waste or contaminated soils into
5 the upper soil zone;
- 6 (v) Level 1 hospital refers to an emergency hospital that provides:
- 7 (1) Initial clinical care and management to patients requiring immediate treatment as well as primary
8 care on prevalent diseases in the locality;
- 9 (2) Clinical services that include general medicine, pediatrics, obstetrics and nonsurgical gynecology,
10 and minor surgery;
- 11 (3) General administrative services that may provide certain ancillary services, including primary
12 clinical laboratory, first level radiology services and pharmacy services; and
- 13 (4) Nursing care for patients who require minimal category of supervised care for twenty-four (24)
14 hours or longer;
- 15 (w) Level 2 hospital refers to a nondepartmentalized hospital that provides:
- 16 (1) Clinical care and management on the prevalent diseases in the locality;
- 17 (2) Clinical services that include general medicine, pediatrics, obstetrics and gynecology, surgery and
18 anesthesia;
- 19 (3) Appropriate administrative and certain ancillary services, including secondary clinical laboratory,
20 first level radiology services and pharmacy services; and
- 21 (4) Nursing care provided in the Level 1 hospital as well as intermediate, moderate and partial
22 category of supervised care for twenty-four (24) hours or longer;
- 23 (x) Level 3 hospital refers to a departmentalized hospital that provides:
- 24 (1) Clinical care and management on the prevalent diseases in the locality as well as particular forms
25 of treatment, surgical procedure, and intensive care;
- 26 (2) Clinical services provided in the Level 2 hospital as well as specialty clinical care;
- 27 (3) Appropriate administrative and certain ancillary services, including tertiary clinical laboratory,
28 second level radiology services and pharmacy services; and
- 29 (4) Nursing care provided in the Level 2 hospital as well as total and intensive skilled care;
- 30 (y) Level 4 hospital refers to a teaching and training hospital with at least one (1) accredited
31 residency training program for physicians that provides:
- 32 (1) Clinical care and management on the prevalent diseases in the locality as well as specialized and
33 subspecialized forms of treatment, surgical procedure, and intensive care;
- 34 (2) Clinical services provided in the Level 3 hospital as well as subspecialty clinical care;
- 35 (3) Appropriate administrative and certain ancillary services, including tertiary clinical laboratory,
36 third level radiology services and pharmacy services; and

- 1 (4) Nursing care provided in the Level 3 hospital as well as continuous and highly specialized critical
2 care;
- 3 (z) Manifest or consignment note refers to a form prescribed by the Department of Environment
4 and Natural Resources (DENR) and the Philippine Nuclear Research Institute (PNRI)
5 accompanying hazardous and radioactive wastes from the point of generation, through transport, to
6 final disposition;
- 7 (aa) Military munitions refer to all types of both conventional and chemical ammunition products
8 and their components produced by or for the military for national defense and security, including
9 munitions produced by other parties under contract with, or acting as agent for, the Department of
10 National Defense (DND);
- 11 (bb) Near surface facilities refer to the disposal site of radioactive waste with or without engineered
12 barrier on or below ground surface where the final protective covering is of the order of a few
13 meters thick or in caverns a few tens of meters below the earth's surface;
- 14 (cc) On-site treatment facilities refer to facilities of generators who treat their own hazardous and
15 radioactive wastes, either by themselves or through a service provider, inside their facilities in
16 compliance with waste acceptance criteria promulgated by the DENR, the Department of Health
17 (DOH) and the PNRI;
- 18 (dd) Open burning refers to the destruction of wastes by means of direct exposure to fire;
- 19 (ee) Person(s) refers to any being, natural or juridical, susceptible of rights and obligations, or of
20 being the subject of legal relations;
- 21 (ff) Radioactive wastes refer to waste materials that contain or are contaminated with radionuclides
22 at concentrations or activities greater than clearance levels as established by the PNRI;
- 23 (gg) Reactivity refers to the state of a waste, or a representative sample of the waste, exhibiting any
24 of the following properties:
- 25 (1) It is normally unstable and readily undergoes violent change without detonating;
- 26 (2) It reacts violently with water;
- 27 (3) It forms potentially explosive mixtures with water;
- 28 (4) When mixed with water, it generates toxic gases, vapors or fumes in a quantity sufficient to
29 present danger to human health or the environment;
- 30 (5) It is a cyanide- or sulfide-bearing waste which, when exposed to pH conditions between 2 and
31 12.5, can generate toxic gases, vapors or fumes in a quantity sufficient to present a danger to human
32 health or the environment;
- 33 (6) It is capable of detonation or explosive reaction if subjected to a strong initiating source or if
34 reacted under confinement; or
- 35 (7) It is readily capable of detonation or explosive decomposition or reaction at standard
36 temperature and pressure;
- 37 (hh) Resource recovery refers to the collection, extraction or recovery of recyclable materials from
38 the waste stream for the purpose of recycling, generating energy or producing a product suitable for
39 beneficial use;

CHAPTER II

MANAGEMENT SYSTEM

SEC. 5. Identification and Listing of Hazardous Wastes. – Within six (6) months from the effectivity of this Act, the DENR shall, after notice and public consultation, develop, formulate and publish criteria for identifying and listing the characteristics of hazardous wastes, taking into account, but not limited to, toxicity, persistence, reactivity and degradability in nature, potential for accumulation in tissue and other related factors. The criteria shall be reviewed and revised every four (4) years thereafter, or as the need arises: Provided, That within six (6) months from the effectivity of this Act, the DENR, in coordination with the Department of the Interior and Local Government (DILG), after public consultation, shall formulate criteria for identifying and listing the categories of hazardous wastes to be regulated, taking into account, but not limited to, the presence of toxicity, reactivity, ignitability and corrosivity.

SEC. 6. Notification of Hazardous and Radioactive Wastes Activity. – Upon the effectiveness of this Act, any person generating or managing hazardous or radioactive wastes is required to notify in writing the DENR, the DOH, and the PNRI of their hazardous or radioactive wastes activities specifying, among others, the types of wastes, quantities and containers used for storage, including incidents involving hazardous and radioactive wastes.

41 SEC. 7. National Hazardous and Radioactive Wastes Status Report. – The DENR, in
42 coordination with the DOH, the PNRI, and other concerned agencies, shall, within six (6) months
43 after the formulation of the criteria for identifying and listing of hazardous and radioactive wastes
44 pursuant to this Act, prepare a National Hazardous and Radioactive Wastes Management Status

- 1 Report which shall be used as a basis in formulating the National Hazardous and Radioactive Wastes
2 Management Framework as provided in Section 8 of this Act. The report shall include, but not
3 limited to, the following:
- 4 (a) Inventory of existing hazardous and radioactive wastes and their depots and facilities;
- 5 (b) General waste characterization, taking into account, but not limited to, the source, type, and
6 quantity of hazardous and radioactive wastes generated;
- 7 (c) Projection of hazardous and radioactive wastes generation, including quantity for reduction,
8 recovery and reuse;
- 9 (d) Listing of TSDFs, including transporters of hazardous and radioactive wastes; and
- 10 (e) Listing of identified contaminated sites.

11 **SEC. 8. National Hazardous and Radioactive Wastes Management Framework.** – Within
12 eighteen (18) months from the effectivity of this Act, the DENR, in coordination with the DOH,
13 the PNRI, and other appropriate agencies and entities, shall prepare and formulate a National
14 Hazardous and Radioactive Wastes Management Framework, herein referred to as the
15 “Framework”, that shall embody policies established pursuant to this Act. Specifically, the
16 Framework shall contain the following:

- 17 (a) Strategies and techniques for hazardous and radioactive wastes control;
- 18 (b) Proper transport, treatment, storage and disposal systems of hazardous and radioactive wastes;
- 19 (c) Goals and targets for waste reduction;
- 20 (d) Period of compliance for waste reduction;
- 21 (e) Information and education campaign;
- 22 (f) Human resources development; and
- 23 (g) Roles and responsibilities of relevant government agencies.

24 The Framework shall be adopted as the official blueprint for hazardous and radioactive wastes
25 management with which all relevant government agencies must comply.

26 **SEC. 9. Use of BAT and BEP in Hazardous and Radioactive Wastes Management.** –
27 Generators and owners of TSDFs are required to use BAT/BEP in hazardous and radioactive
28 wastes management. The DENR, in coordination with the Inter-Agency Technical Advisory Council
29 (IATAC) created herein, shall formulate criteria in assessing the proposed BAT/BEP to be used. In
30 the formulation of these criteria, consideration shall be given, among others, to the relative
31 economic feasibility of the technology.

32 **SEC. 10. Requirements for Generators of Hazardous and Radioactive Wastes.** – Within six (6)
33 months after the effectivity of this Act, the DENR, the DOH, and the PNRI shall establish
34 requirements for generators of hazardous and radioactive wastes. These requirements shall ensure
35 that the generators shall be responsible for the proper management of the wastes generated and bear
36 the costs for proper storage, transport, treatment and disposal of such wastes. The requirements
37 shall include, but not limited to, the following:

- 38 (a) Recordkeeping practices that accurately identify the quantities of such hazardous and radioactive
39 wastes generated, the constituent of which are significant in quantity or are potentially harmful to
40 human health or the environment, and the disposition of such wastes;

- 1 (b) Use of appropriate storage facilities and containers to prevent the release of materials to the
2 environment;
- 3 (c) Labeling practices for any containers used for the storage, transport or disposal of such
4 hazardous and radioactive wastes that will identify accurately such wastes;
- 5 (d) Use of a manifest or consignment note system and any other means necessary to assure that all
6 hazardous and radioactive wastes generated are designated and/or recorded for treatment, storage or
7 disposal in TSDFs with appropriate permit issued pursuant to this Act. The manifest shall also
8 record transportation details of said wastes;
- 9 (e) Emergency and contingency plans for effective action to minimize damage and contain and
10 mitigate effects of spills and accidents in connection with the generation, transport, storage or
11 disposal of such wastes;
- 12 (f) When it is necessary to transport the wastes, the generators shall only engage the services of
13 transporters and TSDFs holding permits issued pursuant to this Act; and
- 14 (g) The waste generator of radioactive wastes shall secure an authority from the PNRI for the
15 transport of radioactive wastes to the treatment facility.

16 **SEC. 11. Requirements Applicable to Transporters of Hazardous and Radioactive Wastes.** –
17 Within six (6) months after the effectivity of this Act, the DENR, in coordination with the DOH,
18 the PNRI, and the Department of Transportation and Communications (DOTC), shall establish
19 requirements applicable to transporters of hazardous and radioactive wastes necessary to protect
20 human health and the environment. These requirements shall include, but not limited to, the
21 following:

- 22 (a) Recordkeeping of such wastes transported, their source and delivery points;
- 23 (b) Use of carriers duly registered with the DOTC;
- 24 (c) Transport of wastes only if properly labeled;
- 25 (d) Transport of wastes only to the TSDF which the generator designates in the manifest form to be
26 a facility holding the appropriate permit issued pursuant to this Act;
- 27 (e) Emergency and contingency plans for effective action to minimize the damage and contain and
28 mitigate effects of spills and accidents in connection with the transport of such wastes; and
- 29 (f) Coordination with other concerned government agencies in the event that the transport of such
30 hazardous and radioactive wastes to designated TSDFs requires security escort or police
31 protection/assistance.

32 **SEC. 12. Requirements Applicable to Owners of Hazardous and Radioactive Wastes TSDFs.**
33 – Within six (6) months after the effectivity of this Act, the DENR, in coordination with the DOH
34 and the PNRI, shall establish requirements applicable to owners of TSDFs of hazardous and
35 radioactive wastes: Provided, That the DENR, the DOH and the PNRI shall, where applicable,
36 distinguish requirements appropriate for new and existing facilities at the time of the effectivity of
37 this Act. These requirements shall include, but not limited to, the following:

- 38 (a) Performance standard for the design, construction, operation, maintenance and monitoring of
39 the facility;
- 40 (b) Requirements and standards to ensure adequate resources, including human and financial,
41 throughout the life cycle of the facility;

- 1 (c) Requirements and standards for the closure, decommissioning and post-closure care, monitoring
2 and maintenance and use of the facility;
- 3 (d) Waste acceptance requirements and procedures, approved by the DENR, the DOH and the
4 PNRI, for different types of hazardous and radioactive wastes packages; and
- 5 (e) Management, engineering controls, medical surveillance, and use of personnel protective
6 equipment to minimize the exposure of workers to the hazards associated with the collection,
7 transport, storage, treatment and/or disposal of hazardous and radioactive wastes.

8 **SEC. 13. Categories of TSDFs for Hazardous and Radioactive Wastes.** – Within six (6)
9 months after the effectivity of this Act, the DENR shall formulate specific, relevant and appropriate
10 criteria for waste acceptance and standards for TSDFs identified hereunder: Provided, however,
11 That the DENR shall revise, as the need arises, the regulations, standards and guidelines applicable
12 to the categories listed hereunder, taking into account the improvements in the technology of
13 control and measurement. The categories of TSDFs are as follows:

- 14 (a) Facilities that conduct on-site treatment and disposal of hazardous wastes generated or produced
15 at the premises for noncommercial purposes. The DENR shall encourage on-site treatment of
16 hazardous wastes by, among other things, providing for incentives: Provided, That generators who
17 undertake partial treatment of wastes shall not be considered as on-site facility;
- 18 (b) Hazardous waste thermal treatment facilities. TSDFs in this category are facilities that conduct
19 treatment of hazardous wastes employing thermal technologies;
- 20 (c) Landfills that accept hazardous wastes for disposal. The DENR shall, after due review and public
21 consultation, promulgate criteria and regulations on the disposal of hazardous wastes in landfills
22 taking into account the following factors:
- 23 (1) The long-term uncertainties associated with land disposal;
- 24 (2) The goal of managing hazardous wastes in an appropriate manner in the first instance; and
- 25 (3) The persistence, toxicity, mobility and propensity to bioaccumulate of such hazardous wastes and
26 their hazardous constituents.

27 For this purpose, the disposal of hazardous wastes in landfills shall ensure no migration of
28 hazardous constituents of the wastes. The disposal in landfills of wastes containing hazardous
29 solvents, pesticides and polycyclic hydrocarbons as determined by the DENR, after public
30 consultation, are prohibited.

31 Within six (6) months from the preparation of the status report, the DENR shall review, classify and
32 rank, subject to public consultations, all hazardous wastes listed pursuant to this Act other than
33 those wastes which are referred to in paragraph 3 of this category or deep injection wells. Within
34 twelve (12) months thereafter, the DENR, when necessary, shall promulgate regulations prohibiting
35 disposal in landfills of such hazardous wastes listed and ranked: Provided, That the DENR shall
36 promptly publish in a newspaper of general circulation notice of such determination, together with
37 an explanation of the basis for such determination: Provided, further, That the storage of hazardous
38 and radioactive wastes in landfills is hereby prohibited;

39 (d) Facilities that recycle or reprocess hazardous wastes which are not generated or produced at the
40 premises.

41 The DENR, in coordination with the Department of Science and Technology (DOST), shall
42 promulgate standards for this category of TSDFs. Facilities in this category are those that receive

1 off-site treatment of hazardous wastes and recover valuable materials from hazardous wastes, use
2 hazardous wastes as input materials or fuel for production, or produce compost by biological
3 treatment of hazardous wastes. It also includes, but not limited to, recyclers of used lead-acid
4 batteries, precious and non-precious metals and oil recyclers;

5 (e) Other off-site treatment facilities. Facilities in this category are those facilities that receive
6 hazardous wastes outside the premises and transform physical and/or chemical characteristics of
7 hazardous wastes in order to dispose of them into landfills;

8 (f) Facilities that store hazardous and radioactive wastes which are not generated or produced at the
9 premises within allowable period. The storage of any hazardous and radioactive waste is prohibited,
10 unless such storage is solely for the purpose of consolidation prior to proper recovery, treatment or
11 disposal but shall not be longer than what is prescribed by the DENR; and

12 (g) Other land disposal facilities. Engineered facilities under this category shall include deep injection
13 wells, borehole facilities, near surface facilities, surface impoundments, and land farming and
14 abandoned underground mines.

15 **SEC. 14. Closure Plan.** – The owner of a TSDF shall submit a closure plan, including the funds
16 and human resources necessary for the same, subject to the review and approval of the DENR.

17 **SEC. 15. Post-Closure of Facility.** – The owner of a TSDF must close the facility upon the
18 termination of its operation and shall, after such closure, provide for its protection during the post-
19 closure care period, in accordance with the requirements of the DENR and the closure plan and
20 shall provide the funds and human resources necessary for the monitoring, repair or maintenance of
21 the facility during the period. The owner shall maintain a hazardous waste facility permit for the
22 post-closure care period pursuant to Chapter VII hereof.

23 **SEC. 16. Formulation of Soil and Sediment Quality Guidelines for Identification of
Contaminated Sites.** – Within six (6) months from the effectivity of this Act, the DENR, in
24 coordination with other relevant government agencies, shall formulate soil and sediment quality
25 guidelines which shall be used to determine contaminated sites.

26 **SEC. 17. Registry of Contaminated Sites.** – The DENR shall maintain a registry of contaminated
sites in the country: Provided, That the DENR shall take all necessary actions to ensure that the
27 registry provides a complete listing of the exact locations of all sites and the types of contamination
28 found thereat: Provided, further, That in developing and maintaining the registry, the DENR shall
29 assess, based upon new information received, the relative priority of the need for action at each site
30 to institute remedial environmental activities and mitigate adverse health impacts resulting from the
31 presence of hazardous and radioactive wastes at such sites.

32 **SEC. 18. Import of Hazardous and Radioactive Wastes.** – The DENR and the PNRI shall
33 promulgate the rules and regulations on the import of hazardous and radioactive wastes consistent
34 with relevant multilateral international agreements and protocols.

35 **SEC. 19. Market-Based Instruments.** – Within six (6) months from the effectivity of this Act, the
DENR shall, in coordination with the manufacturers of commercial or industrial products, identify
36 and implement market-based instruments including extended producer responsibility, buy-back
37 program, responsible care and products stewardship programs that shall promote cleaner
38 production, waste minimization and resource recovery: Provided, That the DENR shall identify and
39 list products that shall be covered by such programs.

40 **CHAPTER III**

41 **RADIOACTIVE WASTES**

1 **SEC. 20. Listing of Radioactive Wastes.** – Within six (6) months from the effectivity of this Act,
2 the DOST and the PNRI, in coordination with the DENR, after public consultation, shall formulate
3 and publish the criteria for identifying and listing the types of radioactive wastes to be monitored
4 and regulated.

5 **SEC. 21. Classification of Radioactive Wastes.** – The PNRI shall establish the waste classification
6 system based on internationally acceptable guidelines. The classification system shall be based
7 primarily on the safety aspects of radioactive wastes disposal: Provided, That other stages of
8 radioactive wastes management may also be developed by the PNRI.

9 **SEC. 22. Management of Radioactive Wastes.** – Pursuant to Sections 10, 11 and 12 hereof, the
10 PNRI shall promulgate the rules and regulations on radioactive wastes management. The rules and
11 regulations shall be based on the BAT to limit the outflow of radioactive substances to the
12 environment, taking into account the benefits as well as the cost of the measures to be undertaken.
13 The measures shall be both technically and economically feasible: Provided, That the rules and
14 regulations may be based on, but not limited to, the following methods of radioactive wastes
15 management:

16 (a) Dilute and Disperse – Radioactive waste with activity level that may be disposed of as ordinary
17 waste into the sewer sanitary landfills;

18 (b) Delay and Decay – Storage of short-lived radionuclides under well-controlled conditions until
19 the radioactivity has decayed to a level which meets the established exemption or clearance limits for
20 such waste; and

21 (c) Characterization, Segregation, Treatment, Conditioning, Transport, Storage and Disposal –
22 Management of radioactive waste containing long-lived radionuclides, including disused sealed
23 sources, and other wastes that cannot be managed under subsections (a) and (b) of this section.

24 The acceptable storage period for conditioned wastes prior to the establishment of a final disposal
25 repository shall be a maximum period of fifty (50) years.

26 **SEC. 23. Guidelines for the Acceptance of Radioactive Wastes by Transporters and TSDFs.**
27 – Within six (6) months after the effectivity of this Act, the PNRI shall formulate specific, relevant
28 and appropriate waste acceptance criteria for transporters and TSDFs of radioactive wastes:
29 Provided, That no radioactive waste shall be accepted unless it complies with the waste acceptance
30 criteria formulated pursuant hereof.

31 **SEC. 24. Site Requirements and Selection Criteria.** – The PNRI shall develop and promulgate
32 the generic site requirements for locating a final repository for radioactive wastes.

33 **SEC. 25. Safety Assessment.** – The PNRI shall develop and promulgate the criteria and
34 regulations on the performance requirements and safety assessment of TSDFs: Provided, That the
35 safety assessment shall, among others, address both radiological and nonradiological risks: Provided,
36 further, That nonradiological environmental impact assessment shall be carried out in accordance
37 with relevant environmental laws.

38 **SEC. 26. Emergency Preparedness.** – The PNRI shall promulgate the requirements and
39 guidelines on the formulation of emergency plans commensurate to the seriousness of the accidents
40 that may occur at the TSDFs.

41 **SEC. 27. Security.** – The PNRI shall promulgate the guidelines on security arrangements to be put
42 in place to ensure that radioactive waste is not accidentally or deliberately removed from its proper
43 location. Particular attention shall be given to materials of intrinsic value that could pose a serious
44 threat to human health and the environment if control is lost.

CHAPTER IV

HAZARDOUS HEALTHCARE WASTES

SEC. 28. Listing of Hazardous Healthcare Wastes. – Within six (6) months from the effectivity of this Act, the DOH, in coordination with the DENR and the DILG, after public consultation, shall formulate the criteria for identifying and listing the categories of hazardous healthcare wastes to be tracked and regulated. In the formulation of such criteria, the DOH shall take into account, but not limited to, the presence of infectious agents, toxicity, reactivity, ignitability and corrosivity.

SEC. 29. Management of Hazardous Healthcare Wastes in Hospitals and Other Healthcare Facilities. – Pursuant to Sections 10, 11 and 12 hereof, the DOH shall promulgate the rules and regulations on the effective management of hazardous healthcare wastes in hospitals and other healthcare facilities. The rules and regulations shall include, but not limited to, the following:

- (a) Hospitals and other healthcare facilities shall practice or implement waste minimization and segregation at source;

(b) Appropriate storage receptacles or bins shall be provided for each healthcare waste category;

(c) Labeling of receptacle per waste category shall likewise be implemented for identification of waste and management measures in case of accidents;

(d) All hazardous healthcare wastes shall be collected and stored in designated on-site storage areas until transported to a TSDF;

(e) Treatment of hazardous healthcare wastes on-site shall be done through appropriate treatment methods;

(f) Upon the approval of the DENR, healthcare facilities with capacity to manage hazardous healthcare wastes on-site may also treat for a fee the hazardous healthcare wastes generated by other healthcare facilities: Provided, That for the off-site treatment requirements of storage and disposal of such wastes, guidelines for facilities under paragraphs (b) to (f) of Section 13 of this Act shall apply: Provided, finally, That in the case of treatment of radioactive healthcare wastes, approval of the PNRI shall be secured;

(g) For hazardous healthcare liquid wastes, all healthcare facilities shall provide wastewater treatment facilities and comply with the effluent standards set by the DENR. The treatment and disposal of sludge shall conform to the provisions of this Act; and

(h) To ensure the proper management of hazardous healthcare wastes, a Committee on Hazardous Healthcare Waste Management may be created in all healthcare facilities: Provided, That in all Level 1, Level 2, Level 3 and Level 4 hospitals, the creation of this committee shall be mandatory. The committee shall also develop an emergency plan to ensure immediate and appropriate action once an emergency occurs. For other healthcare establishments, a hazardous healthcare waste management officer shall be designated.

CHAPTER V

SPECIAL HAZARDOUS WASTES

38 SEC. 30. Collection of Special Hazardous Wastes. – The local government units (LGUs) shall
39 be responsible for the collection of special hazardous wastes, as listed by the DENR in accordance
40 with Section 5 hereof, from persons and households: Provided, That the LGUs may enter into
41 agreement with entities duly accredited by the DENR for the collection of special hazardous wastes.

SEC. 31. Market-Based Instruments (MBIs) for Special Hazardous Wastes. – The LGUs shall enact appropriate ordinances implementing MBIs such as responsible care, extended producer responsibility or product stewardship program that shall include, but not limited to, take-back or return-to-supplier schemes that shall promote waste minimization and resource recovery.

5 SEC. 32. Transport, Treatment, Storage and Disposal of Special Hazardous Wastes. – Upon
6 collection of special hazardous wastes by the LGUs pursuant to Section 30 hereof, the transport,
7 treatment, storage and disposal of special hazardous wastes shall be regulated in accordance with this
8 Act.

CHAPTER VI

INSTITUTIONAL MECHANISM

SEC. 33. Lead Agency. – The DENR shall be the primary government agency responsible for the implementation and enforcement of this Act, including in Philippine Economic Zone Authority (PEZA) areas, special economic and freeport zone areas, and Board of Investments (BOI) areas unless otherwise provided herein. As such, it shall have the following functions, powers and responsibilities:

- (a) Prepare a National Hazardous and Radioactive Wastes Report;
 - (b) Prepare a National Hazardous and Radioactive Wastes Management Framework;
 - (c) Develop and promulgate criteria for identifying and listing the characteristics of hazardous and radioactive wastes;
 - (d) Establish, enforce, review and revise standards for generators of hazardous and radioactive wastes;
 - (e) Establish, enforce, review and revise standards for transporters of hazardous and radioactive wastes;
 - (f) Establish, enforce, review and revise standards applicable to owners and operators of facilities for the treatment, storage and disposal of hazardous and radioactive wastes;
 - (g) Exercise jurisdiction over all aspects of generation, possession, collection, destruction, recovery, use, storage, transportation, entry into, even in transit, treatment and disposal of hazardous and radioactive wastes;
 - (h) Evaluate applications for and issue permits and licenses pursuant to this Act;
 - (i) Revoke, modify or deny, in accordance with the standards, rules and regulations, hazardous waste transporter licenses, TSDFs permits and other permits/licenses issued in accordance with this Act;
 - (j) Establish a cooperative effort among the national government, LGUs, academic institutions, civil society and the private sector to attain the objectives of this Act;
 - (k) Develop and implement programs to achieve goals and objectives set under this Act;
 - (l) Accept, receive and administer grants or other funds or gifts from public and private agencies for the purpose of carrying out the provisions of this Act;
 - (m) Secure necessary scientific, technical, including laboratory facilities, by contract or otherwise;

- 1 (n) Encourage, coordinate, participate in or conduct studies, investigations, research and technical
2 demonstrations relating to hazardous and radioactive wastes management as it may deem advisable
3 and necessary for the discharge of its duties pursuant to this Act;
- 4 (o) Encourage waste reduction, resource recovery, exchange and energy conservation in hazardous
5 and radioactive wastes management;
- 6 (p) Oversee any corrective action work undertaken pursuant to the rules and regulations issued in
7 accordance with this Act;
- 8 (q) Formulate and undertake the appropriate protocol with other concerned agencies for immediate
9 coordinated responses to hazardous and radioactive wastes-related emergency incidents;
- 10 (r) Issue order against any person or entity and impose fines, penalties and other administrative
11 sanctions to compel compliance with the provisions hereof, standards, rules and regulations issued
12 pursuant to this Act; and
- 13 (s) Exercise such powers and perform such other functions as may be necessary to carry out the
14 objectives of this Act.

15 **SEC. 34. Role of the DOH.** – The DOH shall be primarily responsible in performing the following
16 duties and responsibilities:

- 17 (a) Develop, promulgate, and publish criteria in identifying and listing the categories of hazardous
18 healthcare wastes to be monitored and regulated;
- 19 (b) Develop and promulgate the rules and regulations on the effective management of hazardous
20 healthcare wastes in hospitals and other healthcare facilities; and
- 21 (c) Exercise such powers and perform such other functions as may be necessary to carry out the
22 provisions of this Act.

23 **SEC. 35. Role of the PNRI.** – The PNRI shall be primarily responsible in performing the
24 following duties and responsibilities:

- 25 (a) Develop and promulgate regulations establishing a program for the monitoring of the radioactive
26 wastes listed pursuant to this Act;
- 27 (b) Develop, promulgate, and publish the criteria for identifying and listing the types of radioactive
28 wastes to be monitored and regulated;
- 29 (c) Develop and promulgate the rules and regulations on the radioactive wastes management
30 pursuant to Section 22 hereof;
- 31 (d) Formulate specific, relevant and appropriate waste acceptance criteria for transporters and
32 TSDFs of radioactive wastes pursuant to Section 23 hereof;
- 33 (e) Exercise jurisdiction over all aspects of generation, possession, collection, recovery, transport,
34 entry, even in transit, into Philippine territory, treatment, storage and disposal of radioactive wastes;
35 and
- 36 (f) Exercise such powers and perform such other functions as may be necessary to carry out the
37 provisions of this Act.

38 **SEC. 36. Role of LGUs.** – The LGUs shall perform the following duties and responsibilities:

- 1 (a) Share the responsibility for the implementation, enforcement and monitoring of the provisions
- 2 of this Act within their territorial jurisdiction such as the registration and compliance monitoring of
- 3 generators, transports and TSDFs;
- 4 (b) Prepare a compliance scheme in accordance with their special hazardous wastes management
- 5 program;
- 6 (c) Ensure the proper segregation and collection of special hazardous wastes;
- 7 (d) Develop government and community preparedness and responsiveness for emergencies arising
- 8 from hazardous and radioactive wastes;
- 9 (e) Participate in all efforts concerning hazardous and radioactive wastes management; and
- 10 (f) Enact appropriate ordinances to implement the LGUs' role in this Act.

11 **SEC. 37. Inter-Agency Technical Advisory Council (IATAC).** – For purposes of policy
12 integration and harmonization and coordination of functions, there is hereby created an Inter-
13 Agency Technical Advisory Council (IATAC) which shall be attached to the DENR and which shall
14 be composed of the following officials or their duly authorized representatives:

- 15 (a) Secretary of Environment and Natural Resources, as Chairperson;
 - 16 (b) Secretary of Health, as Co-chairperson;
 - 17 (c) Secretary of Science and Technology, as Co-chairperson;
 - 18 (d) Secretary of Agriculture;
 - 19 (e) Secretary of Finance;
 - 20 (f) Secretary of Trade and Industry;
 - 21 (g) Secretary of National Defense;
 - 22 (h) Secretary of Foreign Affairs;
 - 23 (i) Secretary of Transportation and Communications;
 - 24 (j) President of the League of Cities;
 - 25 (k) President of the League of Municipalities;
 - 26 (l) President of the League of Provinces;
 - 27 (m) President of the League of Barangays;
 - 28 (n) Director General of the PEZA;
 - 29 (o) Representative from civil society organizations;
 - 30 (p) Representative from the industry;
 - 31 (q) Representative from TSDF operators; and
 - 32 (r) Representative from the academe.
- 33 The IATAC shall perform the following functions, among others:

1 (1) Develop and promulgate the criteria in assessing the proposed BAT/BEP to be used in
2 accordance with Section 9 hereof; and

3 (2) Constitute and authorize a multidisciplinary body to conduct an annual audit to determine the
4 compliance of TSDF operators with the terms and conditions in the permits and licenses issued
5 pursuant to this Act.

6 Representatives of civil society organizations, the academe, TSDF operators and the industry shall
7 be nominated through a process designed by the IATAC and shall be appointed by the President for
8 a term of three (3) years.

9 **SEC. 38. The IATAC Technical Working Group.** – The IATAC shall be supported by a
10 technical working group (TWG) which shall be composed of representatives from the following
11 agencies and institutions:

12 (a) Environmental Management Bureau (EMB) of the DENR;

13 (b) Environmental and Occupational Health Office of the DOH;

14 (c) PNRI of the DOST;

15 (d) Industrial Technology Development Institute of the DOST;

16 (e) Bureau of Health Facilities and Services of the DOH;

17 (f) Bureau of Soil and Water Management of the Department of

18 Agriculture (DA);

19 (g) Fertilizer and Pesticide Authority of the DA;

20 (h) Bureau of Customs of the Department of Finance (DOF);

21 (i) Bureau of International Trade Relations of the DTI;

22 (j) BOI of the DTI;

23 (k) Bureau of Import Services of the DTI;

24 (l) DND;

25 (m) Land Transportation Office (LTO) of the DOTC;

26 (n) Occupational Health and Safety Center of the Department of Labor and Employment (DOLE);

27 (o) Philippine Coast Guard;

28 (p) Civil society organizations;

29 (q) Industry; and

30 (r) Academe.

31 The TWG shall provide technical support to the IATAC. Representatives of civil society
32 organizations, industry and the academe shall be nominated through a process designed by the
33 IATAC.

34 **SEC. 39. Linkage Mechanism.** – The DENR and its concerned agencies may coordinate and enter
35 into agreement with other government agencies, civil society, industrial sector and other concerned

sectors in the furtherance of the policies of this Act: Provided, That the DENR shall coordinate with the DILG and the Philippine National Police (PNP) in the enforcement of the requirements for transporters issued pursuant to this Act.

SEC. 40. Visitorial Powers. – The DENR, the PNRI and the DOH or their duly authorized representatives shall have access to, and the right to copy therefrom, the records required to be maintained pursuant to the provisions of this Act. The Secretaries of the DENR and the DOH and the Director of the PNRI or their authorized representatives shall likewise have the right to enter the premises of any generator, transporter or TSDF any time to question any employee or investigate any fact, condition or matter which may be necessary to determine any violation, or which may aid in the effective enforcement of this Act and its implementing rules and regulations. This section shall not apply to private dwelling places unless the visitorial power is otherwise judicially authorized.

CHAPTER VII

PERMITS AND FEES

SEC. 41. Permits for Treatment, Storage or Disposal of Hazardous and Radioactive Wastes.

-

(a) Any person owning an existing or a new TSDF for hazardous or radioactive wastes identified or listed pursuant to this Act is required to secure a permit or license pursuant to this section. The DENR and the PNRI shall prescribe reasonable fees for the issuance of the said permit or license.

(b) Duration of Permit – Any permit under this section shall be issued annually during the first three (3) years of operation as a TSDF. Thereafter, the DENR and the PNRI may issue a permit or license with a validity of five (5) years to a TSDF which has satisfactorily complied with the rules and regulations issued pursuant to this Act for the first three (3) years of operation: Provided, That an annual audit shall be conducted by a multidisciplinary body constituted and authorized by the IATAC created pursuant hereof.

(c) Permit Modification, Suspension and Revocation – The DENR and the PNRI shall modify, suspend and revoke such permit upon a determination of noncompliance by a TSDF with the relevant provisions of this Act or the terms and conditions of the permit.

(d) Interim Status – A permit to operate a TSDF issued prior to this Act shall be valid and in force for a period of twelve (12) months after the effectiveness of this Act: Provided, That the required application for the TSDF permit or license shall have been filed within the said twelve (12)-month period: Provided, further, That this paragraph shall not apply to any facility which has been previously denied a TSDF permit or license or if the authority to operate the facility has been previously terminated.

SEC. 42. Hazardous and Radioactive Wastes Transporter License. -

(a) Any person transporting any hazardous and radioactive waste is required to secure a waste transporter license from the DENR, subject to payment of a reasonable fee.

(b) Duration of License – A waste transporter license shall be valid for a period of one (1) year.

(c) License Modification, Suspension and Revocation – The DENR and the PNRI shall modify, suspend and revoke such license upon a determination of noncompliance by a transporter with the relevant provisions of this Act or the terms and conditions of the permit.

1 A license is not required for the transport of any hazardous or radioactive waste on the premises
2 where it is generated or onto a property owned by the generator thereof located within a one (1)
3 kilometer radius from said premises or within the same industrial estate: Provided, That the DENR
4 is notified in writing prior to the transfer and a week after the transfer has been completed. Nothing
5 in this section shall be interpreted to preclude the DENR and the PNRI from inspecting unlicensed
6 hazardous waste transporting equipment and requiring that it be adequate to provide protection to
7 human health and the environment.

8 **SEC. 43. Hazardous Waste Disposal Fee.** – All hazardous waste disposal facilities shall collect,
9 on behalf of the government, from each hazardous waste generator or transporter disposing such
10 waste at the disposal site, a fee that shall accrue to the general fund. The fee shall be established by
11 the DENR, taking into consideration the following:

- 12 (a) Strong economic inducement for generators to modify their production or management
13 processes;
- 14 (b) Cost of administering hazardous and radioactive wastes management;
- 15 (c) Cost of damages caused by hazardous and radioactive wastes on the surrounding environment,
16 including that of rehabilitation;
- 17 (d) Category of waste; and
- 18 (e) Classification of waste.

19 The fee, which shall be established after due public consultation, shall be based on the quantity of
20 waste disposed.

21 CHAPTER VIII

22 FINANCING HAZARDOUS WASTES MANAGEMENT

23 **SEC. 44. Financial Liability for Environmental Rehabilitation.** – The DENR shall require
24 generators and owners of TSDFs to put up an Environmental Guarantee Fund (EGF) as part of the
25 Environmental Management Plan attached to the Environmental Compliance Certificate (ECC)
26 required pursuant to Presidential Decree No. 1586 and its implementing rules and regulations. The
27 EGF shall finance the needs of emergency response, cleanup or rehabilitation of areas that may be
28 damaged during the generation, transport, treatment, storage or disposal of hazardous and
29 radioactive wastes. Liability for damages shall continue even after the termination of the project and
30 until the lapse of a given period indicated in the ECC, as determined by the DENR.

31 The EGF may be in the form of a trust fund, environmental insurance, surety bonds, letters of
32 credit, self-insurance and any other instrument which may be identified by the DENR. The choice
33 of the guarantee instrument or combinations thereof shall depend, among others, on the assessment
34 of the risks involved. Proponents required to put up guarantee instruments shall furnish the DENR
35 with evidence of availment of such instruments.

36 **SEC. 45. Performance Bond.** – Prior to the issuance of the required permit to operate, the DENR
37 shall require a transporter, owner of treatment/storage facility to post a performance bond. The
38 performance bond shall be forfeited in the event of abandonment of sites and/or nonperformance
39 of post-closure requirements issued pursuant to Section 15 hereof: Provided, That this provision
40 shall not apply to state-owned treatment/storage facilities and to recyclers identified and listed
41 pursuant to this Act.

CHAPTER IX

INCENTIVES

SEC. 46. Rewards. – Rewards, monetary or otherwise, shall be provided to individuals, private organizations and entities, including nongovernment organizations (NGOs) that have undertaken outstanding and innovative projects, technologies, processes, and techniques, or activities for the management of hazardous and radioactive wastes.

7 SEC. 47. Incentives Scheme. – An incentive scheme is hereby provided for the purpose of
8 encouraging enterprises, private entities, LGUs and NGOs to develop or undertake effective
9 hazardous and radioactive wastes management, or actively participate in any program geared towards
10 the promotion thereof, consistent with the objectives of this Act.

11 (a) Tax and Duty Exemption on Imported Capital Equipment – Within five (5) years after the
12 effectivity of this Act, registered enterprises, LGUs and NGOs shall enjoy tax- and duty-free
13 importation of machinery, equipment, technology, spare parts and specialized types of vehicles used
14 for the transport, processing, storage, and treatment of hazardous and radioactive wastes, including
15 cleaner production and waste minimization technologies: Provided, That the importation of such
16 machinery, equipment, technology, vehicles, and spare parts shall comply with the following
17 conditions:

18 (1) These are not manufactured domestically in sufficient quantity, of comparable quality and at
19 reasonable prices;

20 (2) These are reasonably needed and will be used actually, directly and exclusively for the
21 abovementioned activities; and

22 (3) The importation of such machinery, equipment, technology, vehicles, and spare parts should be
23 approved by the BOI of the DTI: Provided, further, That the sale, transfer or disposition of such
24 machinery, equipment, technology, vehicles, and spare parts, without prior approval of the BOI,
25 within five (5) years from the date of acquisition, shall be prohibited; otherwise, the registered
26 enterprise, LGU or NGO concerned and the buyer, transferee or assignee shall be solidarily liable to
27 pay twice the amount of tax and duty exemption given it.

(b) Exemption from Value-Added Tax (VAT) on the Sale of Domestic Capital Equipment – Within five (5) years from the effectivity of this Act, the sale of domestic capital equipment, including its spare parts, to registered enterprises, LGUs and NGOs to be used for the processing, storage and treatment of hazardous and radioactive wastes shall be exempted from the VAT imposed under the National Internal Revenue Code of 1997, as amended: Provided, That the said incentive shall be subject to the same conditions and prohibitions cited in the preceding paragraph.

34 (c) Tax Exemption of Donations, Legacies and Gifts – All donations, legacies and gifts made by any
35 person or entity in favor of the registered enterprises, LGUs and NGOs, for the support and
36 maintenance of the program for effective hazardous and radioactive wastes management, shall be
37 exempt from the donor's tax and such amount of donation shall be deductible from the gross
38 income of the donor pursuant to Section 34, paragraph (h) of the National Internal Revenue Code
39 of 1997, as amended.

40 (d) Financial Assistance Program – Government financial institutions such as the Development
41 Bank of the Philippines (DBP), the Land Bank of the Philippines (LBP), the Government Service
42 Insurance System (GSIS) and such other government institutions providing financial services shall,
43 in accordance with and to the extent allowed by the enabling provisions of their respective charters
44 or applicable laws, accord high priority to extending financial services to individuals, enterprises or

1 private entities engaged in hazardous, radioactive, medical and special hazardous wastes
2 management.

3 (e) Extension of Grants to LGUs. – Cities or municipalities whose special hazardous wastes
4 management programs have been duly accredited by the DENR or have adopted innovative waste
5 management programs may be entitled to receive grants for the purpose of developing their
6 technical capacities toward actively participating in the program for effective and sustainable waste
7 management.

8 (f) Tax Exemption on Hazardous Wastes Generated Within PEZA Areas, Freeports, and Other
9 Special Economic Zones – Hazardous waste materials generated within PEZA areas, freeports and
10 other special economic zones shall be allowed to be brought to the Philippine customs territory for
11 the sole intention of recycling and/or treatment and shall be exempted from the payment of any tax
12 due on said hazardous wastes: Provided, That said recyclable hazardous waste materials are
13 identified and listed in accordance with Section 5 of this Act.

14 CHAPTER X

15 CIVIL LIABILITY AND PENAL PROVISIONS

16 **SEC. 48. Generator's Liability.** – A generator is primarily responsible for the management of
17 hazardous and radioactive wastes until said wastes have been certified as properly treated or
18 disposed by duly accredited TSDFs: Provided, That for wastes that are exported outside of the
19 country and treated and disposed in accordance with international agreements, the TSDFs in the
20 country of destination shall issue the certificate of treatment and disposal. All other environmental
21 service providers involved in the transport, treatment, storage and disposal of said wastes shall be
22 jointly and severally liable with the generator in the event of any adverse environmental impact due
23 to the improper management of the wastes.

24 **SEC. 49. Prohibited Acts.** – The following acts are prohibited:

25 (a) Discarding, throwing or dumping of hazardous or radioactive wastes listed pursuant to this Act
26 in public places such as roads, sidewalks, canals, esteros, parks, establishments and municipal solid
27 waste facilities, or causing or permitting the same;

28 (b) Undertaking activities involving the collection or transport of hazardous or radioactive wastes in
29 violation of the standards and other requirements or permits set forth in this Act;

30 (c) Causing or permitting the collection of unsegregated or unsorted hazardous wastes;

31 (d) Operating a TSDF without permit issued pursuant to this Act;

32 (e) Transporting hazardous or radioactive wastes without the required permit or license pursuant to
33 this Act;

34 (f) Mixing of source-separated recyclable material with other hazardous waste in any vehicle, box,
35 container or receptacle used in hazardous or radioactive waste collection or disposal;

36 (g) Disposal of hazardous or radioactive wastes in open and controlled dumps as enjoined in this
37 Act, or causing and permitting the same;

38 (h) Establishment and operation of open and controlled dumps for hazardous or radioactive wastes;

39 (i) Transporting and dumping of collected hazardous or radioactive wastes in areas other than the
40 facilities prescribed under this Act;

- 1 (j) Open burning of hazardous or radioactive wastes;
- 2 (k) Transporting any hazardous or radioactive wastes to a TSDF which is not authorized to receive
- 3 such wastes pursuant to this Act;
- 4 (l) Treating, storing or disposing of any hazardous or radioactive waste without permit or license to
- 5 do so pursuant hereof, or in knowing violation of any material condition or requirement of such
- 6 permit or license, or in violation of any standard promulgated pursuant to this Act;
- 7 (m) Making any false material statement, representation or certification in any application, label,
- 8 permit, record, report, manifest or other document filed, maintained or required to be maintained
- 9 under this Act;
- 10 (n) Falsifying, tampering with or rendering inaccurate any monitoring device or result therefrom
- 11 used, filed, maintained or required to be maintained under this Act;
- 12 (o) Generating, treating, storing, transporting, disposing of or handling any hazardous or radioactive
- 13 waste and, in connection therewith, knowingly destroying, altering or concealing any record required
- 14 to be maintained pursuant to this Act;
- 15 (p) Owning, maintaining or operating any hazardous or radioactive waste disposal facility in a
- 16 manner which permits any act or hazardous waste management practice in violation of standards or
- 17 rules and regulations issued pursuant to this Act;
- 18 (q) Failing to notify the DENR, the DOH and the PNRI of hazardous or radioactive waste activities
- 19 pursuant to Section 6 hereof;
- 20 (r) Importing or causing or permitting the entry, even in transit, of any hazardous or radioactive
- 21 waste into Philippine territory in violation of the provisions of this Act and its implementing rules
- 22 and regulations and relevant international agreements and protocols;
- 23 (s) Constructing, substantially altering or operating, including all post-closure activities and
- 24 operations specified in the rules and regulations, a hazardous or radioactive waste TSDF without
- 25 first obtaining a permit as specified in this Act; and
- 26 (t) Site preparation, construction, expansion or operation of TSDFs without an ECC required
- 27 pursuant to Presidential Decree No. 1586 and this Act.

28 For purposes of this provision, the term "hazardous waste" shall include special hazardous and

29 healthcare waste.

30 **SEC. 50. Fines, Damages and Penalties.** – Unless otherwise provided herein, any person who

31 commits any of the prohibited acts provided in the immediately preceding section or violates any of

32 the provisions of this Act or its implementing rules and regulations shall be fined by the Pollution

33 Adjudication Board (PAB) in the amount of not less than fifty thousand pesos (P50,000.00) but not

34 more than one million pesos (P1,000,000.00) for every violation: Provided, That for violation of

35 Section 49 involving prohibited acts under paragraphs (a), (g), (h), (i), (l), (p), (s) and (t), the fine shall

36 be imposed for every day of violation.

37 For purposes of the application of the fines, the PAB shall, within one (1) year after the effectivity of

38 this Act, establish a fine rating system to adjust the maximum fine based on the violator's ability to

39 pay, degree of willfulness, degree of negligence, degree of severity of the offense, history of

40 noncompliance and degree of recalcitrance.

41 The fines herein prescribed shall be reviewed and revised, whenever necessary, every three (3) years

42 to compensate for inflation and to maintain the deterrent function of such fines.

1 The PAB may order the closure, suspension of development or construction, or cessation of
2 operations until such time that proper environmental safeguards are put in place and/or compliance
3 with this Act or its rules and regulations are undertaken, without prejudice to the issuance of an ex
4 parte order for such closure, suspension of development or construction, or cessation of operations
5 during the pendency of the case: Provided, That if the prohibited act undertaken shall require
6 cleanup and rehabilitation, the offender shall also be required to restore the area or compensate for
7 the restoration thereof. The PAB may also award such damages as it may deem just under the
8 circumstances in favor of a private complainant.

9 In case of gross violation of this Act, the PAB shall issue a resolution recommending that the proper
10 government agencies file criminal charges against the violators. Gross violation shall mean any of the
11 following:

12 (a) Deliberate disposal of hazardous or radioactive wastes without the required permit issued
13 pursuant to this Act;

14 (b) Three (3) or more violations of paragraphs (a), (d), (e), (g), (k), (l) and (m) of Section 49 hereof
15 within a period of two (2) years; or

16 (c) Blatant disregard of the orders of the PAB such as the nonpayment of fines, breaking of seals or
17 operation of the source of pollution despite the existence of an order for closure, discontinuance or
18 cessation of operation or the unjustified refusal for the entry or access to any premises of an
19 authorized DENR representative.

20 In these cases, the offender shall pay a fine of not less than five hundred thousand pesos
21 (P500,000.00) but not more than five million pesos (P5,000,000.00) and/or punished with
22 imprisonment of not less than three (3) years but not more than ten (10) years at the discretion of
23 the court. If the offender is a juridical person, the chief executive officer and the pollution control
24 officer or its equivalent shall suffer the penalty herein provided: Provided, That the officers and
25 incorporators of TSDFs who violated the post-closure requirements issued pursuant to Section 15
26 hereof shall be banned from setting up TSDFs and hazardous and radioactive wastes transport
27 companies, and engaging in the operation of the same.

28 If the offender is an alien, he or she shall, after service of the sentence prescribed above, be
29 deported without further administrative proceedings.

30 The fines herein prescribed shall be reviewed and revised, whenever necessary, every three (3) years
31 to compensate for inflation and to maintain the deterrent function of such fines.

32 **SEC. 51. Administrative Sanctions.** – Local government officials and officials of government
33 agencies concerned who fail to comply with and enforce rules and regulations promulgated relative
34 to this Act shall be charged administratively in accordance with Republic Act No. 7160 or the “Local
35 Government Code of 1991” and Executive Order No. 292 or the “Administrative Code of 1987”
36 and other existing laws, rules and regulations.

37 **SEC. 52. Administrative Action.** – Without prejudice to the right of any affected person to file an
38 administrative action, the DENR, the DOH and the PNRI shall, at their instance or upon verified
39 complaint by any person, institute administrative and civil proceedings against any person who
40 violates:

41 (a) Standards or limitations provided under this Act; or

42 (b) Any order, rule or regulation issued by the DENR, the DOH or the PNRI with respect to such
43 standards or limitations.

SEC. 53. Citizen Suit. – For purposes of enforcing the provisions of this Act or its implementing rules and regulations, any citizen may file an appropriate civil, criminal or administrative action in the proper courts or bodies against the following:

4 (a) Any person who violates or fails to comply with the provisions of this Act or its implementing
5 rules and regulations; or

6 (b) The DENR or other implementing agencies with respect to orders, rules and regulations issued
7 inconsistent with this Act; or

8 (c) Any public officer who willfully or grossly neglects the performance of an act specifically
9 enjoined as a duty by this Act or its implementing rules and regulations, or abuses his authority in
10 the performance of his duty, or, in any manner, improperly performs his duties under this Act or its
11 implementing rules and regulations: Provided, however, That no suit can be filed until after a thirty
12 (30)-day notice has been given to the public officer and the alleged violator concerned and no
13 appropriate action has been taken thereon.

14 The court shall exempt such action from the payment of filing fees, except fees for actions not
15 capable of pecuniary estimations, and shall, likewise, upon prima facie showing of the
16 nonenforcement or violation complained of, exempt the plaintiff from the filing of an injunction
17 bond for the issuance of a preliminary injunction.

18 Within thirty (30) days, the court shall make a determination if a complaint is malicious and/or
19 baseless and shall accordingly dismiss the action and award attorney's fees and damages.

SEC. 54. Suits and Strategic Legal Action Against Public Participation (SLAPP) and the Enforcement of this Act. – Where a suit is brought against a person who filed an action as provided in Section 53 of this Act, or against any person, institution or government agency tasked to implement this Act, it shall be the duty of the investigating prosecutor or the court, as the case may be, to immediately make a determination not exceeding thirty (30) days whether the legal action has been filed to harass, vex, exert undue pressure or stifle such legal recourses of the person complaining of or enforcing the provisions of this Act. Upon determination thereof, evidence warranting the same, the court shall dismiss the case and award attorney's fees and double damages.

28 This provision shall also apply and benefit public officers who are sued for acts committed in their
29 official capacity, there being no grave abuse of authority, and done in the course of enforcing this
30 Act.

CHAPTER XI

MISCELLANEOUS PROVISIONS

33 SEC. 55. Mandatory Public Hearings. – Mandatory public hearings for the formulation of the
34 Framework mandated under Section 8 hereof shall be undertaken in accordance with the process to
35 be determined by the DENR.

36 SEC. 56. Research on Hazardous and Radioactive Wastes Management. – The DENR shall,
37 after consultations with the concerned agencies, encourage and render financial and other assistance
38 to appropriate government and private agencies, institutions and individuals in the conduct and
39 promotion of researches, experiments and other studies on hazardous and radioactive wastes
40 management, particularly those relating to:

41 (a) Adverse effects on health as a result of the release into the environment of hazardous and
42 radioactive wastes, and methods to eliminate said effects or minimize the health risks;

- 1 (b) The operation and financing of hazardous and radioactive wastes disposal programs;
 - 2 (c) The planning, implementation and operation of resource recovery and resource conservation
 - 3 systems;
 - 4 (d) The production of usable forms of recovered resources, including fuel from hazardous waste;
 - 5 (e) The development and application of new and improved methods of collecting, separating and
 - 6 disposing of hazardous and radioactive wastes, and processing and recovering materials and energy
 - 7 from hazardous and radioactive wastes;
 - 8 (f) Cleaner production technologies;
 - 9 (g) Improvements in land disposal practices for hazardous and radioactive wastes; and
 - 10 (h) Development of new uses of recovered resources and identification of existing or potential
 - 11 markets of recovered resources.

12 In carrying out hazardous and radioactive wastes researches and studies, the DENR, the DOH and
13 the DOST or their authorized representatives may award grants or enter into contracts with
14 government agencies, NGOs and private persons.

15 SEC. 57. Public Education and Information. – The DENR, the DOH and the PNRI, in
16 coordination with the Department of Education (DepED), the Technical Education and Skills
17 Development Authority (TESDA), the Commission on Higher Education (CHED), the DILG, the
18 Philippine Information Agency (PIA) and the LGUs, shall conduct a continuing education and
19 information campaign on hazardous and radioactive wastes management. Such education and
20 information program shall:

21 (a) Aim to develop public awareness of the impacts of hazardous and radioactive wastes and how to
22 prevent or minimize their adverse effects;

23 (b) Focus on activities which are feasible and which will have the greatest impact on the hazardous
24 and radioactive wastes management; and

25 (c) Encourage the general public, accredited NGOs and POs to publicly endorse and patronize
26 environment-friendly products.

SEC. 58. Environmental Education in the Formal and Nonformal Sectors. – The national government shall, through the DepED and in coordination with concerned government agencies, NGOs and private institutions, strengthen the integration of environmental concerns in school curricula at all levels, with particular emphasis on the principles underlying hazardous and radioactive wastes management in order to promote environmental awareness and affirmative action among the citizenry.

SEC. 59. Role of the Business and Industry. – The DENR, the DOH and the PNRI shall encourage commercial and industrial establishments, through appropriate incentives other than tax incentives, to initiate, participate and invest in integrated hazardous and radioactive wastes management projects; to manufacture environment-friendly products; to introduce, develop and adopt innovative processes that shall recycle and reuse materials, conserve raw materials and energy, reduce waste and prevent pollution; and to undertake community activities to promote and propagate effective hazardous and radioactive wastes management practices.

CHAPTER XII

FINAL PROVISIONS

- 1 **SEC. 60. Appropriations.** – The Secretaries of the DENR, the DOH and the DOST shall include
2 in their respective programs the implementation of this Act, the funding of which shall be included
3 in the annual General Appropriations Act.
- 4 In addition, the Departments may accept donations, contributions, grants, bequests or gifts, in cash
5 or in kind, from various sources, domestic or foreign, for purposes relevant to hazardous and
6 radioactive wastes management functions: Provided, That in case of donations from foreign
7 governments, acceptance thereof shall be subject to prior clearance and approval of the President of
8 the Philippines, upon the recommendation of the Secretary of Foreign Affairs.
- 9 Receipts from donations shall be accounted for in the books of the recipient government agency in
10 accordance with pertinent accounting and auditing rules and regulations.
- 11 **SEC. 61. Implementing Rules and Regulations.** – Within one (1) year after the effectivity of this
12 Act, the DENR, the DOH and the PNRI, respectively, shall promulgate the implementing rules and
13 regulations of this Act: Provided, That rules and regulations issued by other government agencies
14 and instrumentalities relative to hazardous and radioactive wastes management consistent with this
15 Act shall supplement the rules and regulations issued by the DENR, the DOH and the PNRI
16 pursuant to the provisions of this Act.
- 17 There shall be a mandatory review of the implementing rules and regulations and the standards set
18 pursuant to the provisions of this Act.
- 19 **SEC. 62. Joint Congressional Oversight Committee.** – In addition to its mandated functions, the
20 Joint Congressional Oversight Committee created under Republic Act No. 9003 or the “Ecological
21 Solid Waste Management Act of 2000” shall also monitor the implementation of this Act.
- 22 **SEC. 63. Transitory Provision.** – Pending the establishment of the Framework mandated under
23 Section 8 hereof and the promulgation of the implementing rules and regulations of this Act,
24 pertinent existing laws, regulations, programs and projects on hazardous and radioactive wastes
25 management shall be enforced: Provided, That for specific undertakings, these may be revised in the
26 interim in accordance with the intentions of this Act.
- 27 **SEC. 64. Report to Congress.** – The DENR shall render to Congress not later than March 30 of
28 every year following the approval of this Act, a detailed report of its accomplishments and progress
29 on hazardous and radioactive wastes management during the year and shall submit the necessary
30 recommendations in areas requiring legislative action.
- 31 **SEC. 65. Separability Clause.** – If any provision of this Act or the application of such provision to
32 any person or circumstance is declared unconstitutional, the remainder of this Act or the application
33 of such provision to other persons or circumstances shall not be affected by such declaration.
- 34 **SEC. 66. Repealing Clause.** – Republic Act No. 6969, Executive Order No. 192, Republic Act
35 No. 9003, Republic Act No. 7160 and Republic Act No. 2067, as amended, are partly modified. All
36 laws, decrees, issuances, rules and regulations or parts thereof inconsistent with the provisions of
37 this Act are hereby repealed or modified accordingly.
- 38 **SEC. 67. Effectivity.** – This Act shall take effect fifteen (15) days after its publication in at least two
39 (2) newspapers of general circulation.
- 40 Approved,
