House Bill No. _____

Introduced by Rep. LAWRENCE LEMUEL H. FORTUN

EXPLANATORY NOTE

Mt. Mayapay is a prominent natural landmark in Caraga Region. It is a magnificent mountain located east of Butuan City, probably its range's highest peak with an elevation of 2,214 feet above sea level, with a plateau formation that graces as the predominant feature of the city's backdrop. The mountain provides a panoramic view of the City of Butuan, and the surrounding areas of the provinces of Agusan del Norte and Agusan del Sur, the City of Gingoog, the Butuan Bay, the Mindanao Sea, the Camiguin Island, and the coastlines of the provinces of Surigao del Norte and Bohol.

Mt. Mayapay, along with its peripheral areas, was a vital watershed in the environs of Butuan City and the Municipality of Buenavista, Agusan del Norte until it was abused by loggers and poachers. At present, the ecosystem of Mt. Mayapay continues to be invaded and assaulted, and is now highly endangered and threatening to extinction whatever few remaining endemic flora and fauna that thrive in the area. Moreover, experts have expressed alarm that if nothing is done to arrest its continuous degradation, landslides that could claim thousands of lives are not remote given the fact that the mountain lies along a fault line.

The people of the City of Butuan and the Province of Agusan del Norte have come together to strongly voice out their concerns on the sad state of Mt. Mayapay and the real threat of the destruction of lives and properties should its devastation continue. Various sectors have taken initiatives calling for the protection and conservation of this glorious mountain. However, activities contributing to its further deterioration have continued due to the lack of a policy that ensures its protection, rehabilitation, and conservation.

In this light, this bill seeks to conserve and protect the physical integrity and biological diversity of Mt. Mayapay through its declaration as a protected landscape. It shall ensure sustainable and participatory management through proper consultations with various stakeholders including the Indigenous Peoples (IP) residing in the area. The provisions of the IPRA Law shall be upheld with the rights of IPs to be protected and respected.

In view of the foregoing, the immediate approval of this bill is earnestly sought.
