RESOLUTION

**STRONGLY URGING THE HOUSE COMMITTEE ON APPROPRIATIONS TO
RESTORE CUTS IN THE MAINTENANCE AND OTHER OPERATING EXPENSES
OF STATE UNIVERSITIES AND COLLEGES, AND STUDY OPTIONS TO
AUGMENT FUNDING FOR PERSONNEL SERVICES AND CAPITAL OUTLAY**

WHEREAS, Section 1, Article XIV of the 1987 Constitution provides that: "The State shall protect and promote the right of all citizens to quality education at all levels and shall take appropriate steps to make such education accessible to all;"

WHEREAS, Section 5(5) of the same Article states that: "The State shall assign the highest budgetary priority to education and ensure that teaching will attract and retain

its rightful share of the best available talents through adequate remuneration and other means of job satisfaction and fulfillment;"

WHEREAS, in the proposed 2020 national budget, SUCs are given an immediately accessible budget of ₱64.87 billion (₱64,866,907,000.00), an increase of only ₱155.7 million (₱155,668,000.00) or 0.24% from the current ₱64.711 billion (₱64,711,239,000.00). However, a closer scrutiny of the budget reveals massive cuts in their budget for personnel services, maintenance, operations, and infrastructure.

WHEREAS, 53 out of 114 SUCs are set to incur cuts in their overall budget, while also 19 schools are set to sustain cuts in their operating budget.

The following SUCs are affected:

WHEREAS, 49 state schools will meanwhile incur CO cuts totaling ₱3.34 billion (₱3,345,171,000.00). The largest decrease will be suffered by 9 SUCs, which are set to incur 100% budget cut—a total of P251.5 million (₱251,500,000.00) for their CO;

WHEREAS, 90 from the 114 SUCs will receive PS cuts for 2020, as compared to 2019 where it amounts to ₱1,710,765,000.00. 2020 PS net budget decreased by 3.37%, equivalent to ₱1.5 billion decrease (₱1,520,927,000.00).

WHEREAS, data from the Department of Budget and Management reveals that the annual subsidy to our state schools – despite its gradual increase over the years – fall short by an average of ₱23.5 billion.

Based on DBM's Budget Expenditures and Sources of Financing (BESF), while the total expenditure of 114 SUCs in the country amounts to an average of ₱54.3 billion annually now—less than the ₱81 billion average before the passing of the

Republic Act 10931 or the Universal Access to Quality Tertiary Education—the government provision for SUCs still falls short by ₱23.5 billion, amounting to an average of only ₱63.3 billion since 2017. The following data culled from the BESF depicts the said shortage:

TOTAL EXPENDITURES OF SUCs 2017-2020 (IN '000 PHP)			
Year	Expenditure from government subsidy	Expenditure from internal income	Total Expenditures
2017	63,380,026	16,444,017	79,824,043
2018	64,996,803	20,362,503	85,359,306
2019 (Estimates)	68,337,557	28,507,775	27,110,855
2020 (Estimates)	68,502,656	28,802,925	24,870,700
Average	63,304,260.50	23,529,305	54,291,226

WHEREAS, in the past years, we have witnessed the gradual dilution of the public character of our state schools despite the Free Tertiary Education as it is riddled with maneuvers. Education has been reduced to being a lucrative business milking the youth and our parents dry for profit.

SUCs are actually utilizing various income-generating mechanisms including charging tuition and other fees and utilizing assets. Since 2010, we have seen a steady increase in tuition rates and a sharp increase in the collection of other school fees (OSFs). These collections are no less than profiteering measures driven by massive deregulation, privatization, and denationalization of education.

Since 2018, the annual internal income of all SUCs amount to an average of ₱24.17 billion, around 64% or ₱15.5 billion of which comes from fees paid by students. Next year, the DBM projects that SUCs will earn a total of ₱26.56 billion from internal income;

WHEREAS, despite the passage of the Universal Access to Quality Tertiary Education Law, the Department of Budget and Management expects the country's 114 SUCs to earn a total of ₱26.56 billion in combined internal income, including fees collected from students. Of the ₱26.56 billion, ₱12.97 billion will be sourced from tuition collection while ₱5.21 billion will be from other income collected from students.

What is worrisome is that our state schools might introduce new and higher fees to students who are not covered by the free tuition grant in the coming year just to meet the internal income. These figures show us that the policy of charging higher fees to students remains largely intact. In the end, students stand to lose much if the government continues in this pathway towards increasing unaffordability and inaccessibility of even our state schools.

Thus, it is apparent that the nearing 2 million SUC students are the real victims in the continued underfunding of the government for our SUCs. Due to insufficient funds, states schools intensify the collection of tuition and other fees;

WHEREAS, with the passage of the Universal Access to Tertiary Education Law, it is but just and reasonable for the House Committee on Appropriations to consider

restoring the ₱614.69 million slashed in the MOOE of 19 SUCs and to study options to augment funding for PS and CO. This representation is urging the Committee on Appropriations, headed by the Hon. Isidro T. Ungab, to study options on where to source funds that will be used to augment the budget of these schools;

WHEREAS, higher education is an instrument of empowerment and thus contributory for national development. Higher education serves a public and social purpose. Contrary to current market-driven economic policies, higher education is a public good and should not be left vulnerable to free market forces and commercial interests. Underfunding public higher education is tantamount to undermining the future of the nation;

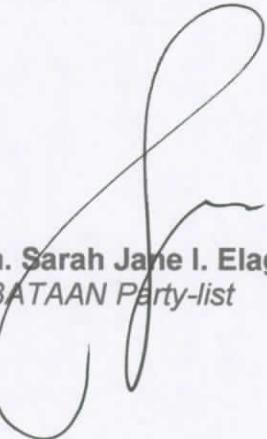

WHEREAS, the government's current budget framework for state schools is contradictory to its intention of developing public education. For years, our students and constituents have called for greater state funding for education. Yet, a decrease—albeit minimal—such as we see in the 2020 budget still took place. What our state schools need is a substantial increase – an additional budget that could match their actual funding requirement. Greater state funding is needed for our schools to regain their public character, and provide ample support for student services and faculty development;

WHEREAS, we need a kind of education that will capacitate the youth as agents of social change. It is, therefore, imperative for us to collectively advance our demands to strengthen public education. Without education, the nation's chance for national progress and development is left to chance;

WHEREAS, what is needed is a complete overhaul of the current system of education –repeal all existing deregulation and commercialization policies in education, and establish a nationalist, scientific, and mass-oriented system of education;

NOW THEREFORE BE IT RESOLVED, AS IT IS HEREBY RESOLVED, that the House Committee on Appropriations is being strongly urged to restore cuts in the maintenance and other operating expenses of state universities and colleges, and study options to augment funding for personnel services and capital outlay.
