

REPUBLIC OF THE PHILIPPINES  
**HOUSE OF REPRESENTATIVES**  
Quezon City

**EIGHTEENTH CONGRESS**  
First Regular Session  
House Bill No. 1955

---

Introduced by **MAGDALO Party-List Representative**  
**HON. MANUEL DG. CABOCHAN III**

---

**EXPLANATORY NOTE**

With the fast-changing signs of the times and the advent of modern technology, the existing Sanitary Engineering Law that aims to protect public health and environment has become outdated. The scope and complexities of environment pollution have increased and the need for environmental surveillance and protection in the field of Sanitary Engineering has broadened. Thus, it is the aim of this legislation to enact a measure that will enable the Sanitary and Environmental Engineers to be more effective in dealing with today's environmental and public health problems.

This bill seeks to update and upgrade the more than fifty-year old Republic Act No. 1364 to make the practice of Environmental and Sanitary Engineering more relevant to contemporary conditions and challenges.

In view of the foregoing, approval of this measure is earnestly requested.

**MANUEL DG. CABOCHAN III**  
*Representative*  
Magdalo Para sa Pilipino Party-List

REPUBLIC OF THE PHILIPPINES  
**HOUSE OF REPRESENTATIVES**  
Quezon City

**EIGHTEENTH CONGRESS**  
**First Regular Session**

**House Bill No. 1955**

---

Introduced by **MAGDALO Party-List Representative**  
**HON. MANUEL DG. CABOCHAN III**

---

**AN ACT**

**PROVIDING FOR A MORE RESPONSIVE AND COMPREHENSIVE REGULATIONFOR THE PRACTICE, LICENSING, AND REGISTRATION OF ENVIRONMENTALAND SANITARY ENGINEERS IN THE PHILIPPINES AMENDING FOR THEPURPOSE REPUBLIC ACT NO. 1364 AND FOR OTHER PURPOSES**

*Be it enacted by the Senate and the House of Representatives of the Philippines in Congress assembled:*

1       **SECTION 1. Title.**- This Act shall be known as the "Revised Environmental and  
2       Sanitary Engineering Act".  
3

4       **SEC. 2. Definition of Terms.**- As used in this Act, the following terms shall mean:  
5

6       a. Biosolids - similar to sludge.  
7

8       b. Fixture Unit - a quantity in terms of which the load producing effects the  
9       plumbing systemsof different kinds of plumbing fixtures are expressed on some  
10      arbitrarily chosen scale.  
11

12      c. Garbage - used to designate the putrescible wastes resulting from growing,  
13      handling, preparation, cooking and consumption of food.  
14

15      d. Gray Water - untreated household wastewater which has not come in contact with  
16      toilet waste and includes water from bathtubs, bathroom washbasin, and washing  
17      machines and laundry tubs. It shall not include wastewater from kitchen sinks or  
18      dishwashers.  
19

20      e. Hazardous Waste - shall refer to by-products, side products, process residues,  
21      spent reactionmedia, contaminated plant or equipment or other substances from  
22      manufacturing operations andas consumer discards of manufactured products  
23      which present unreasonable risk/injury to healthand safety and to the environment.  
24

25      f. Ionizing Radiation - is the energy that propagated through space or material  
26      medium in the form of waves or particle and is capable of either directly or  
27      indirectly removing electrons from atoms, thereby creating ions, which are  
28      electrically charged atoms.

- 1 g. Non-Ionizing Radiation - includes ultraviolet radiation, visible light, microwaves,  
2 electromagnetic radiation used in television, am and fm radio communications and  
3 electromagnetic fields around electric power lines and appliances.
- 4 h. Plumber - a person who fits and repairs water and drainage pipes.
- 5 i. Radiation - the process in which energy in the form of rays of light, heat or waves  
6 is sent out through space from atoms and molecules as they go internal change.
- 7 j. Reclaimed Water - water which, as a result of a tertiary treatment of domestic  
8 wastewater, is made suitable for direct beneficial use, specifically excluded from  
9 this definition is "gray water".
- 10 k. Refuse - materials that are collected and disposed of which includes garbage,  
11 rubbish, ashes, street sweepings, dead animals, and solid market and industrial  
12 wastes.
- 13 l. Re-use Water - gray water and/or reclaimed water put into beneficial use.
- 14 m. Rubbish - denotes all non-putrescible waste except ashes.
- 15 n. Sanitarian - person who reviews or examines critically located establishments in  
16 compliance to the Sanitation Code and its implementing rules and regulations.
- 17 o. Environmental and Sanitary Engineer - a person duly registered with the Board of  
18 Examiners for Environmental and Sanitary Engineering in the manner as herein  
19 provided.
- 20 p. Sanitary Engineer - a person duly registered with the Board of Sanitary and  
21 Environmental Engineering under Republic Act 1364, that shall be an  
22 environmental and sanitary engineer upon the enactment of this law.
- 23 q. Solid Waste - synonymous to refuse.
- 24 r. Toxic Materials - any material that may have a poisonous effect on man or  
25 organism.
- 26 s. Trash - similar to rubbish, dry solid wastes generated in office buildings.
- 27 t. Treated Water - water that had undergone mechanical, physical andor chemical  
28 process for the purpose of purification.

43 **SEC. 3. Scope of Environmental and Sanitary Engineer.**- Under this Act,  
44 Environmental and Sanitary engineering may be practiced by a person who renders or offer  
45 render professional engineering services in the form of, but not limited to, the following:

- 46 1. Consultancy, investigation, valuation, planning, monitoring, construction,  
47 installation, manufacturing, research and management of services requiring  
48 environmental and sanitary engineering knowledge.

- 1           2. Human resources development on environmental protection and sanitation, in  
2           consonance with the other engineering disciplines with other paramedical and  
3           medical sciences.

4

5           **SEC. 4. Duties and Responsibilities.**- The functions of environmental and sanitary  
6           engineer are, but not limited to, the following areas:

- 7
- 8           1. Public Health is a field wherein services as nosocomical engineering for the health  
9           administrative authority are rendered in, but not limited to sanitation, disease  
10          prevention and control, and other public health concerns using engineering  
11          methods and paramedical measures;
- 12
- 13          2. Water usage, conservation and protection shall include all aspects in the protection  
14          and conservation of water resources, classification of water, protection of  
15          watersheds and use of water;
- 16
- 17          3. Re-education of the populace on the production of safe water supply, water  
18          purifications, water collection, conveyance, treatment and distribution;
- 19
- 20          4. Storm drainage and wastewater management wherein waste management shall  
21          include, but not limited to, waste minimization, sanitary sewer collection,  
22          wastewater conveyance and disposal, wastewater treatment plants, sewage  
23          treatment plants, and effluent disposal, sewer appurtenances, sewage; lifting  
24          stations, leachate treatment, sludge and septage disposal and storm drainage  
25          management shall include, but not limited to, run-off collection, storm water  
26          conveyance and disposal including storm sewer appurtenances;
- 27
- 28          5. Solid waste refuse management shall include, but not limited to, waste  
29          minimization, storage, segregation, collection, conveyance, treatment and  
30          disposal, including necessary appurtenances;
- 31
- 32          6. Toxic and hazardous substances and radiation wherein toxic and hazardous  
33          substances shall involve engineering works in, but not limited to, manufacturing,  
34          processing, storage, conveyance, use, treatment and disposal of products, and by-  
35          products such as heavy metals, persistent organic pollutants, priority pollutants,  
36          polychlorinated biphenyls, poisons, radioactive and nuclear wastes, hospital  
37          waste, institutional waste, and agricultural wastes. Radiation shall include, but not  
38          limited to, non-ionic and ionic radiation effects, protection, and control;
- 39
- 40          7. Pollution Prevention and Control shall involve all aspects in prevention and  
41          control of noise, air, water, and land pollution;
- 42
- 43          8. Life and Safety shall involve the preservation of life and protection of property  
44          against hazards and injurious conditions in, but not limited to, buildings,  
45          horizontal developments, aircrafts, sea vessels, land crafts, industrial areas, public  
46          places and areas, underground structures for public and private use, recreational  
47          places and areas. It shall include construction safety management, management  
48          and operation safety, and mitigating measures; and

- Environmental Engineering and Planning wherein engineering in environmental protection shall include, but not limited to, hydrology, ecology, environmental impact assessment.

## **ARTICLE II**

### **Board of Examiners for Sanitary and Environmental Engineers**

**SEC. 5. Composition of the Board.**- Within thirty (30) days from the effectivity of this Act, there shall be created a Board of Examiners for Environmental and Sanitary Engineers, hereinafter referred to as the "Board". It shall be composed of a chairman and two (2) members who shall be appointed by the President of the Philippines upon the recommendation of the Commissioner on Civil Service from among such persons of recognized standing in their profession as may be certified as having practiced at least five years and academically and morally fully qualified by their *bonafide* sanitary engineering associations. The members of the Board shall hold office for a term of three (3) years after appointment or until their successor shall have been appointed and shall have duly qualified. The first members of the Board appointed under this Act shall hold office for the following terms: one (1) member for one (1) year; one (1) member for two (2) years; and one (1) member for three (3) years. Each member of the Board shall qualify by taking the proper oath of office before entering upon the performance of his duties. Any member of the Board may be removed by the President for neglect of duty, incompetence, malpractice, unprofessional, unethical, immoral, or dishonorable conduct, after having been given opportunity to defend himself in a proper administrative investigation: *Provided*, That during the process of investigation, the President shall have power to suspend such member under investigation and shall appoint a temporary member in his place. Vacancies in the Board shall be filled for the unexpired with the following designations:

1. One (1) over-all Environmental and Sanitary Engineer as chairman; and
  2. Two (2) Environmental and Sanitary Engineer members; one (1) of which shall be the same time a Sanitarian.

The two (2) members shall work under the direct supervision and responsibility of the Chairman of the Board.

**SEC. 6. Powers and Duties of the Board.**- The Board of Examiners for Environmental and Sanitary Engineering is vested with the authority, conformable with the provisions of this Act, to administer oaths, issue, suspend and revoke certificates of registration for the practice of Environmental and Sanitary Engineering, to issue certificates of recognition to sanitary engineers who are already practicing prior to the effectivity of this Act for advanced studies, research and/or highly specialized training in any branch of Environmental and Sanitary Engineering, subject to the approval of the President, to investigate such violations of this Act and the regulations thereunder as may come to the knowledge of the Board and for this purpose, to issue *subpoenaduces tecum* to secure appearance of witnesses in connection with the charges presented to the Board, to inspect, at least once a year, educational institutions offering courses in Environmental and Sanitary Engineering, and to discharge such other powers and duties as may effect ethical and technological standards of the Sanitary Engineering profession in the Philippines. For the purpose of this Act, the Secretary of Health, and/or his duly authorized representatives in

1 theprovinces and chartered cities shall be *ex-officio* agents of the Board, and as such it shall  
2 be their duty to help in the enforcement of the provision of this Act.  
3

4 If any person refuse to obey any subpoena so issued or shall refuse to testify or  
5 produceany book, document, etc., the Board may present its petition to the appropriate courts  
6 of jurisdiction, setting forth the facts and thereupon such court shall, in a proper case, issue its  
7 *subpoena* to such person, inquiring his appearance before such court shall, and there to testify  
8 or produce such books, person papers, documents, etc., as may be deemed necessary and  
9 pertinent by the Board. Any person failing or refusing to obey the *subpoena* or order of the  
10 said court, may be proceeded against in the same manner as for refusal to obey any other  
11 *subpoena* or order of the court.  
12

13 The board shall exercise executive/administrative, quasi-legislative and quasi-  
14 judicialpowers in carrying out the specific powers, functions, duties and responsibilities:  
15

- 16 1. Supervise and regulate the practice of the Environmental and Sanitary Engineers  
17 and Sanitarians in the country;
- 19 2. Determine and evaluate the qualifications ofthe applicants for registration for  
20 special permits;
- 22 3. Prepare the examination questions in accordance with the pertinent section of this  
23 Act; prescribe the syllabi of the subjects and their relative weights for the  
24 licensure examinations; formulate or adopt test questions and deposit them in a  
25 test question bank; draw the test questions at random through process of  
26 computerization; and submit the examination results to the Professional  
27 Regulation Commission (PRC) within the period provided for by the rules of the  
28 Commission;
- 30 4. Prescribe, amend or revise the requirements for Environmental and Sanitary  
31 Engineers subjects in the licensure examination for Professional Environmental  
32 and Sanitary Engineers, registered Sanitarians and their relative weight, subject to  
33 the approval of the Commission;
- 35 5. Register successful applicants who have passed the licensure examinations for  
36 Environmental and Sanitary Engineers and Sanitarians and issue corresponding  
37 certificates of registration and professional licensure;
- 39 6. Issue special permits to individual foreign Sanitary Engineer, Environmental  
40 Engineers and Sanitarians for specific projects and for specific duration of time;
- 42 7. Look into the conditions affecting the practice of the Environmental and Sanitary  
43 Engineering and Sanitarian profession and adopt measures for the enhancement of  
44 the professions and the maintenance of high professional technical and ethical  
45 standards and conduct ocular inspections of the places where registrants practice  
46 their profession to determine and enforce compliance with this Act. The Board  
47 shall authorized the duly integrated and accredited Environmental and Sanitary  
48 Engineering, integrated sanitatian associations to render assistance in the function;  
49

- 1       8. Promulgate rules and regulations including a code of ethics, administrative  
2       policies, orders and issuance to carry out the provisions of this Act;
- 3       9. Investigate violations of the Act and the rules and regulations, code of ethics,  
4       administrative policies, orders and issuance promulgated by the Board. The rules  
5       on administrative investigation promulgated by the Commission shall govern such  
6       investigation;
- 7
- 8       10. Issue *subpoena* or *subpoena decus tecum* to secure the attendance of respondents  
9       or witnesses or the production of documents at, and relative to the investigation  
10      conducted by the Board;
- 11
- 12      11. Delegate the investigation of the case to the Chairman, a member of the Board of  
13       Professional Regulations Commission (PRC) Legal Division. If the case concerns  
14       strictly the practice of the profession, the investigation shall be presided by the  
15       Chairman or Member of the Board with the assistance of a PRC attorney;
- 16
- 17      12. Render decision, order or resolution on preliminary investigation or inquiry, on  
18       undocketed cases and on docketed administrative cases against examinees or  
19       registrants which shall become final and executor unless appealed with the  
20       commission within fifteen (15) days from receipt of the copy thereof. The  
21       decision of the commission may be appealed to the court of justice in accordance  
22       with the procedure provided in the rules of court;
- 23
- 24      13. After due notice and hearing, cancel examination papers and/or bar any examinee  
25       from the future examination; refuse or defer his registration; reprimand the  
26       Registrant with stern warning; suspend him from the practice of his profession;  
27       revoke his Certificate of Registration; delist his name from the roll of professional  
28       Environmental and Sanitary Engineers, Registered Sanitarians, for continuous  
29       non-payment of annual registration. Delisting from the roll by the Board as  
30       provided herein, may be appealed initially to the Commission within fifteen (15)  
31       days from receipt thereof. The decision of the Commission may be appealed to the  
32       court in accordance with the procedure provided in the rules of court;
- 33
- 34      14. Administer oaths in connection with administrations, implementations, or  
35       reinforcement of this Act;
- 36
- 37      15. Submit an annual report on the proceeding and accomplishments during the year,  
38       and on recommendations of the Board of the Commission after the close of each  
39       fiscal year;
- 40
- 41      16. Prosecute or institute criminal action against any violator of the Act and/or the  
42       rules and regulations of Board;
- 43
- 44      17. Adopt an official seal;
- 45
- 46      18. Coordinate with the Commission on Higher Education in prescribing, amending  
47       and/or revising the courses; and
- 48
- 49      19. Perform such other functions and duties as may be necessary to implement  
50       effectively this Act. The policies, resolutions, rules and regulations, orders or

1 decisions issued or promulgated by the Board shall be subject to the review and  
2 approval by the Commission: *Provided, however,* That the Board's decisions,  
3 resolutions or orders which are not interlocutory, rendered in an administrative  
4 case, shall be subject for review only if on appeal.  
5

6 **SEC. 7. Qualifications of Board Members.**- Each member of the Board shall, at the  
7 time of this appointment:

- 8 1. Be a natural-born Filipino citizen and resident of the Philippines for at least five  
9 (5) consecutive years;
- 10 2. Be at least thirty-five (35) years of age and of good moral character, of proven  
11 integrity with moral values in his personal as his professional conduct;
- 12 3. Be a holder of the Degree of Bachelor of Science in Sanitary Engineering (BSSE)  
13 or Bachelor of Science in Environmental and Sanitary Engineering (BSEnSE), for  
14 the members of the Board of Sanitary and Environmental Engineering and  
15 Chairman of specialty boards, from a university, school, college, academy or  
16 institute duly constituted, recognized and accredited by the Philippine  
17 government;
- 18 4. Be registered professional Environmental and Sanitary Engineer, or sanitarian  
19 with a valid certificate of registration in their respective field of practice, and a  
20 valid license duly qualified to practice Environmental and Sanitary Engineering or  
21 as Sanitarian in the Philippines;
- 22 5. Must not be an official nor a member of the faculty of, nor have pecuniary interest  
23 in, any university, college, school or institution offering bachelor's degree in  
24 Environmental and Sanitary Engineering for at least three (3) years prior to this  
25 appointment, and is not connected with a review center or with any group or  
26 association where review classes or lectures in preparation for the licensure  
27 examinations are offered or conducted at the time of his appointment;
- 28 6. Have practiced Environmental and Sanitary Engineering or as a Sanitarian for a  
29 period of not less than ten (10) years prior to his appointment, with a sworn  
30 statement as such; and
- 31 7. Finally, a person with no final conviction by the court of an offense involving  
32 moral turpitude.

33 **SEC. 8. Compensation of Board of Members.**- The members of the Board shall  
34 receive monthly compensation of not less fifteen thousand (P15,000.00) or in accordance  
35 with the salaries and wages stipulated under PRC Law: *Provided,* That the Chairman shall  
36 receive a monthly compensation often percent (10%) more. *Provided further,* That such  
37 compensation shall be increased or modified pursuant to the general appropriations act of the  
38 year. *Provided, furthermore,* That they shall receive other benefits that may be provided for  
39 by the law.

40 **SEC. 9. Executive Officer of the Board.**- The Commissioner shall be the executive  
41 officer of the Board and shall conduct the examination given by the Board and shall designate  
42

any subordinate officer of the commission to act as secretary and a custodian of all records and minute of the Board, including all examination papers, and minutes of the deliberations of the board.

**SEC. 10. *Term of Office.***- The members of the Board shall hold office for a term of three (3) years from the date of appointment or until their successor shall have been appointed or qualified. They may, however, be re-appointed for the second term as recommended by their respective accredited professional regulation organizations. Each member shall qualify by taking oath of office before entering upon the performances of his duties.

Vacancies in the Board shall be filled by the President from the list of candidates selected by the Commissioner who were chosen from the list of nominees submitted by the integrated and accredited association for the unexpired term only.

**SEC. 11. Removal of Board Members.**- Any member of the Board may be removed by the President of the Philippines, upon the recommendation of the Commissioner for neglect of duty, incompetence, malpractice, commission or tolerance of irregularities in the examinations, or for unprofessional, unethical, or dishonorable conduct, after having been given the opportunity to defend himself in administrative investigation.

21       **SEC. 12. Terms of Office of the Board Members.**- Upon Approval of this Act, the  
22 incumbent chairman and two (2) members of the Board shall continue to serve until their  
23 terms of office expire, or until their replacements have been appointed by the President, and  
24 shall have been duly qualified.

## **ARTICLE III**

### **Examination and Registration**

**SEC. 13. Registration and License Required.**— A valid certificate of registration and a valid professional license from the Commission are required before any person is allowed to practice Environmental and Sanitary Engineering and as Sanitarian in the Philippines, except, as otherwise allowed under this Act.

**SEC. 14. Examination Requirement.**- All applicants for registration for the practice of Environmental and Sanitary Engineering shall be required to pass their respective technical examinations as hereinafter provide, except as otherwise specifically allowed under this Act.

**SEC. 15. Holding of Examination.** - Examination of candidates desiring to practice Environmental and Sanitary Engineering and Sanitarian in the Philippines shall be given in the City of Manila, or any other regional centers that may be designated by the Board, beginning on the last Monday of February and August of each year: *Provided*, That such days do not fall on official holidays, otherwise the examination shall be held on the days immediately following the set date.

**SEC. 16. Examination Fees.**- All applicants for written examinations for the professional Environmental and Sanitary Engineers, Registered Sanitarian shall be subject to payment of fees prescribed by the Commission:*Provided*, That ninety percent (90%) of the fees is to be treated as a special fund for the programs, projects and activities of the

1 Commission and the remaining ten percent (10%) shall be set aside as trust fund for the  
2 establishment and maintenance of the center for continuing education and research.  
3

4       **SEC. 17. *Registration Fees, License Fees, and Fines.***- All applicants for registration  
5 and license to practices shall be subject to payment of registration fees, license fees, and  
6 fines, in case of violation of the pertinent rules and regulations for the amounts prescribed by  
7 the Board and approved by the Commission:*Provided*, That fifty percent (50%) from these  
8 collections shall be set up in a separate special fund for the supervisory and regulatory  
9 functions of the Board.  
10

11       **SEC. 18. *Scope of Examination.***- Applicants for certificates of registration as  
12 Environmental and Sanitary Engineer, and as Sanitarian shall be examined in the following  
13 subjects:  
14

- 15       1. Professional Environmental and Sanitary Engineer - Mathematics, including  
16 algebra, plane and spherical trigonometry, analytic, descriptive and solid  
17 geometry, differential and integral calculus, rational and applied mechanics;  
18 hydraulics; topographic surveying, design and construction of wooden,  
19 masonry, reinforced concrete, and steel structures as flumes, water towers and  
20 drainage canals; hydrology, ecology, public health engineering,  
21 environmental impact assessment, pollution prevention and control, design  
22 and construction of sewers, storm drains, water purification plants, treatment  
23 plants and planning engineering: *Provided, however,* That duly registered  
24 Civil Engineers shall be exempted from taking examinations in the following  
25 subjects: (1) Mathematics, including algebra, plane and spherical  
26 trigonometry, differential and integral calculus, rational and applied  
27 mechanics; (2) hydraulics; (3) topographic and hydrographic surveying; and  
28 (4) design and construction of wooden, masonry, reinforced concrete and  
29 steel structure flumes, water towers and drainage canals; and  
30
- 31       2. Registered Sanitarian - Arithmetic; code on sanitation and its implementing  
32 rules and regulations; microbiology and parasitology and practical problems.  
33

34       **SEC. 19. *Report of Ratings.***- The Board of Examiners for Environmental and  
35 Sanitary Engineering shall, within one hundred twenty (120) days after the date of  
36 completion of the examination, report the ratings obtained by each candidate to the Civil  
37 Service Commissioner, who shall submit such ratings to the President.  
38

39       **SEC. 20. *Examination.***- An applicant who for the third time fails to pass the  
40 examination for the same grade shall not be allowed to take another until at least one year has  
41 elapsed after his last examination.  
42

43       **SEC. 21. *Issuance of Certificates of Registration and Professional License.***- The  
44 President shall upon the recommendation of the Board, issue a certificate of registration upon  
45 payment of the registration fess as provided in this Act to any applicant, who, in the opinion  
46 of the Board and after approval by the President, has satisfitorily met all the requirements  
47 specified in this Act.  
48

49       The registration for Environmental and Sanitary Engineer or registered Sanitarian  
50 shall commence from the date his name is entered in the roll of registrants or licensees, for  
51

1 his profession, or trade. Every registrant who has satisfactorily met all the requirements  
2 specified in this Act, upon payment of the registration fee, shall be issued a certificate of  
3 Environmental and Sanitary Engineer or registered Sanitarian that shows the full name of the  
4 registrant, and with a serial number, signed by the Commissioner and by the Chairman and  
5 all the members of the Board, stamped with the official seal.

6 To practice the profession and/or Trade with all the rights and privileges appurtenant  
7 thereto, the certificate shall remain in full force and effect until withdrawn, suspended, or  
8 revoked in accordance with the law.  
9

10 A professional license signed by the Commission and bearing the registration number  
11 and date of issuance thereof, and the month of expiry or renewability shall likewise be issued  
12 to every registrant who has paid the rumual registration fees for three (3) consecutive years.  
13 This license will serve as evidence that license can lawfully practice his profession until the  
14 expiration of its validity.  
15

16 **SEC. 22. Qualification of Applicants for Environmental and Sanitary Engineering**  
17 **Examinations.**- Any person applying for admission to the Environmental and Sanitary  
18 Engineering, as herein provided, shall establish to the satisfaction of the Board that, on or  
19 before the date of examination, he possesses the following qualifications:  
20

- 21 1. He is a citizen of the Philippines;
- 22 2. He is of good reputation with good moral values;
- 23 3. He has not been finally convicted by the court of an offense involving moral  
24 turpitude;
- 25 4. He is a holder of the degree of Bachelor of Science in Sanitary Engineering  
26 (BSSE) or Bachelor of Science in Environmental and Sanitary Engineering  
27 (BSEnSE) from a university, college, academy or institute duly constituted,  
28 recognized and accredited by the Philippine government; and  
29
- 30 5. Engineers who have taken their Masteral units in Environmental and/or Public  
31 Health Engineering with supplemental units which the Board may require.  
32

33 **SEC. 23. Qualification of Applicants for Registered Sanitarian.**- Any person  
34 applying for the admission to the Sanitarian examinations, as herein provided, shall establish  
35 to the satisfaction of the Board that, on or before the date of the examination, he possesses the  
36 following qualifications:  
37

- 38 1. He is a citizen of the Philippines;
- 39 2. He is of good reputation with good moral values;
- 40 3. He has not been finally convicted by the court of an offense involving moral  
41 turpitude;
- 42 4. He is second year student of Bachelor of Science in Sanitary, Civil, Mechanical,  
43 Chemical orElectrical Engineering or second year student of Bachelor of Science  
44 in the field of natural sciences;  
45

- 1  
2       5. He has at least two (2) units in basic microbiology, parasitology and environmental  
3                   sanitation laws; and
- 4       6. He has at least six (6) weeks experience as apprentice sanitarian under the  
5                   supervision of registered Environmental and Sanitary Engineer.

6  
7       **SEC. 24. *Oath.***- All successful candidates in the examination shall be required to take  
8                   a professional oath before the Board authorized to administer oaths, prior to entering upon the  
9                   practice of Environmental and Sanitary Engineering and Sanitarian profession.

10  
11      **SEC. 25. *Seal and Use of Seal.***- All registered Environmental and Sanitary Engineers  
12                   shall obtain their respective seal, of such design, as the certificate issued by the Board shall  
13                   authorize and direct: *Provided, however,* That the serial number of the seal, plans and  
14                   specifications prepared by, or under the direct supervision of a registered Environmental and  
15                   Sanitary Engineers, shall be stamped with the seal during the life of the registrants certificate.  
16                   And it shall be unlawful for anybody to stamp or seal any document with said seal after the  
17                   certificate the registrant named therein has expired or has been revoked, unless said  
18                   certificate have been renewed or reissued.

19  
20      **SEC. 26. *Exemption from Examination and Registration.***- Registration shall not be  
21                   required of foreign Sanitary Engineers or experts called in by the Philippine government for  
22                   consultation for specific Sanitary and/or Environmental Engineering services as defined  
23                   under this Act: *Provided,* That this practice shall be limited to such work: *And provided  
24                   further,* That they do not engage in private practice at their own account as Environmental  
25                   and Sanitary Engineers.

26  
27      **SEC. 27. *Refusal to Issue Certificates.***- The Board of Environmental and Sanitary  
28                   Engineers shall not issue a certificate of registration to any person convicted of any criminal  
29                   offense involving moral turpitude, or to any person guilty of immoral or dishonorable  
30                   conduct, or to any person of unsound mind. In the event of a refusal to issue a certificate to  
31                   any person, the Board shall give to the applicant a written statement setting forth the reasons  
32                   for such action, which statement shall be incorporated in the records of the Board.

33  
34      **SEC. 28. *Revocation of Certificates of Registration and Suspension from the  
35                   Practiceof Profession.***- The Board shall have the power after due notice and hearing, to  
36                   suspend or revoke the certificate of registration of any registrant, for any cause mentioned in  
37                   the preceding section, or due to incompetence or for unprofessional or dishonorable conduct,  
38                   for violation of this Act, the rules and other policies of the Board and the code of professional  
39                   ethics.

40  
41      It shall be a sufficient ground for the revocation of certification issued to a person  
42                   under this Act, and his suspension from the practice of his profession for unprofessional or  
43                   dishonorable conduct, if:

- 44  
45       1. Being a Professional Environmental and Sanitary Engineer, he has signed and  
46                   affixed his seal on any plan, design, technical reports, valuation, estimate,  
47                   specification or other similar document or work not prepared by him or not  
48                   executed under his immediate supervision;

2. To be in charge of the construction, erection, installation, or alteration, or of the performance of Sanitary Engineering service in connection with the manufacture, sale supply or distribution of any Sanitary Engineering works, projects or plant (as cited in article one, section two of this Act), either for himself or for others, unless he holds a valid certificate of registration as Environmental and Sanitary Engineer;
  3. This decision of the Board shall be final and executory unless it is appealed by the respondent to the Commission within fifteen (15) days from the receipt of such decision. The Board's or Commission's decision is appealable by the respondent to the court of justice in accordance with the procedure under the rules of court;
  4. Any person, firm, associations or corporation may file charges in accordance with the provisions of this section against any license, or Board may, on its own initiative (*motuproprio*) investigate and/or take cognizance of acts and practices constituting cause for suspension or revocation of the certificate of registration;
  5. The rules and regulations of the commission on administrative investigation shall govern the procedure and conduct of administrative investigation before the Board; and
  6. The respondent shall have the right to a speedy and public hearing and to confront and cross-examine witnesses against him.

**SEC. 29. *Re-issuance of Revoked Certificates and Replacement of Lost Certificates.*** - Subject to approval of the Commission, the Board may, after the expiration of one (1) year from the date a Certificate of Registration is revoked, and for reasons may deem sufficient, entertain an application for a new certificate of registration from the registrant concerned. Such application shall be accomplished in the same form prescribed for examination, but the Board may, in its discretion, exempt the applicant from taking the requisite examination. A new Certificate of Registration to replace any certificate that has been lost, destroyed or mutilated be issued, subject to the rules of the Board.

**SEC. 30. *Integration of the Professional Organizations.***- The Environmental and Sanitary Engineering Professional shall be integrated into one national organization which shall be recognized by the Board as the one Integrated and Accredited Association. Every Environmental and Sanitary Engineer and Registered Sanitarian upon registration with the Board as such, shall *ipso facto*, become a member of their respected integrated national organization. Those who have been registered with the Board but are not members of the said organization at the time of the effectivity of this Act, shall be allowed to register as members of the said within three (3) years after the effectivity of this Act. Membership in the integrated organization shall not be baned in other associations.

**SEC. 31. *Continuing Professional Education and Development Committee.***- The accredited professional organizations shall have a continuing professional development committee which shall be appointed by the Board of Directors of the PSSE, by means of resolution, whose members shall be represented one (1) member of the PTC, one (1) member of the Academe, one (1) member from the practitioners and one (1) Pre Board of EnSE and Sanitarian, to evaluate the programs, providers, and certificates of the continuing professional program.

## ARTICLE IV
