EXPLANATORY NOTE

Section 16, Article II of the 1987 Constitution of the Republic of the Philippines provides that, "The State shall protect and advance the right of the people to a balanced and healthful ecology in accord with the rhythm and harmony of nature." Likewise, Section 4 of Article XII provides that, "The Congress shall, as soon as possible, determine by law the specific limits of forest lands and national parks, marking clearly their boundaries on the ground. Thereafter, such forest lands and national parks shall be conserved and may not be increased nor diminished, except by law. The Congress shall provide, for such period as it may determine; measures to prohibit logging in endangered forests and watershed areas.

Mountain Province is known to be the watershed of the five major rivers in Northern Luzon namely: Chico River, Agno River, Abra River, Mallig River and Sifu River. These five major rivers are the ones sustaining the hydroelectric dams as well as the source of irrigation water in the neighboring provinces of Northern Luzon. Therefore, there is a need to preserve and conserve the remaining forest cover of the province to prevent environmental degradation and promote sustainable development for the present and future generations by establishing the final forestland boundary of Mountain Province.

In view of the foregoing, approval of the bill is earnestly urged.
